300 SERIES LOWER-MID PERFORMANCE

300C Track has designed the new 300C to be our first entry in the lower mid performance arena, and our first symmetrical core in three years. This will give true Track fans the opportunity to be competitive on all lane conditions, including the driest, and garner consideration of new bowlers to make Track their first ball.

The 300C's Track Symmetric core is wrapped with a brand new coverstock blend, the LMP GEN1 with performance pearl. This cover is designed to be very clean through the front part of the lane, with the predictability of the ever popular "C" balls.
