MANUFACTURER'S INTENT

Track has designed the new 607ASE as a Special Edition product to meet the needs of competitive bowlers. Because its extreme angularity positions it between the 505A and 715A, the 607ASE provides the best of both worlds.

6	UPPER-MID PERFORMANCE	ALL NEW "SE 6" Gen1 Reactive™
07	CORE STRENGTH	(HorsePower) Indicates how strong the core potential is. 07=.007 Intermediate Differential.

600 SERIES UPPER-MID PERFORMANCE

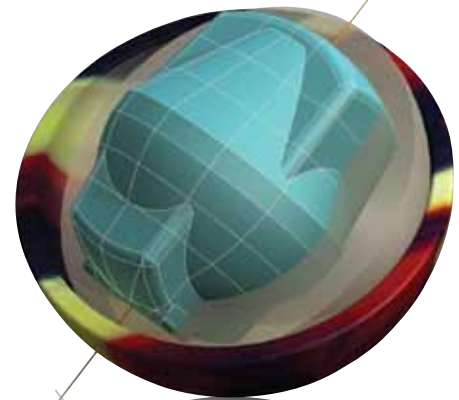

607A
SPECIAL EDITION

607A Why a 6 series ball? Track's R&D Department developed the 607ASE specifically positioned between the 505A and 715A, presenting a level of performance that bowlers are looking for, right between the two.

The core is a modified version of the Legion core used in the Track Temper. Extreme Angularity is the strength of the "SE6" GEN1 coverstock, making this ball a dynamic choice for the oil patterns in typical house shots most competitive league bowlers face.

Get it now, because there won't be another 6 for some time.
