

Information Sheet

ATTACK ZONE™

Specifications

	Black - reactive 60-102929	Blue Sanded - conventional 60-102927
	Copper - reactive 60-102930	Green Pearl - conventional 60-102928
	Reactive Urethane	Conventional urethane
Hook Potential:	10 - 3 (dull/shiny)	10 - 3 (dull/shiny)
Typical Length:	7	8.5
Typical Backend:	8.5	5.5
RG Max:	2.695	2.705
RG Min:	2.674	2.684
Diff. RG:	0.021	0.021
Average RG:	8.4	8.7
Track Flare:	4.5	4.5

Reaction Characteristics

In the all new Attack Zone™ series, Brunswick engineers have combined superior technology, used in our high performance line to produce four mid-price promotional masterpieces that put the finishing touches on the worlds Perfect Line Up of bowlingballs.

The **Attack Zone** series features two balls perfect for medium to dry lane conditions and the entire spectrum of bowler styles.

Notes on Drilling

Note: The top dead center of the puddle weight blocks are marked by a riser pin. All weights of the **Attack Zone** line can be drilled using the techniques developed for two-piece balls. See Brunswick's "Seven Popular Layouts" for detailed drilling information.
