

TURBO BLACK PANTHER

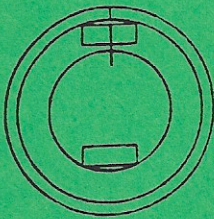

PRODUCT SPECIFICATION SHEET

Performance Characteristics: The Black Panther incorporates the Level 2 Symmetric Core along with great graphics, performance, and price. The Panther has the longest length and hardest flip of any of the Ebonite Turbo line of bowling balls. It is a medium flair potential ball with maximum versatility created by changing ball surface.

CORE #1
14, 15, 16 POUND

CORE #2
12, 13 POUND

Completion March 1, 1996
