

1991

10 YEARS LATER...

2001

LEGEND

THE LEGEND CONTINUES...

A Ball with a Rich History.

(Not to mention an aggressive one.)

In 1991, Nu-Line unveiled to the world *the* very first reactive ball that turned the bowling industry upside down and forever changed the way the game is played today...the X-CALIBUR™.

Now, 10 years later, Nu-Line raises the bar again with the introduction of a ball that takes the X-CALIBUR to a new level... the X-CALIBUR LEGEND™.

With the introduction of a high-tech MicaTak coverstock combined with a stronger core, the X-CALIBUR LEGEND delivers a more powerful hook and a more violent snap at the break point resulting in the next chapter in Nu-Line's history.

The X-CALIBUR LEGEND raises your game to a new level. This is *the* ball you have been waiting for.

The Legend continues.
