

FINALLY, A BALL MADE FOR GUYS WHO HAVE
BETTER THINGS TO DO
 THAN HANG WITH THE WIFE AND KIDS.

You asked for it. We took action. Introducing the new Action from Columbia300. The perfect mix of low RG and high differential, symmetric simplicity in the core and our powerful M-80 reactive coverstock. It's a potent combination that gives you the fast-revving, versatile "go-to" ball you've been looking for.

But the Action is much more than a ball. It's the continued commitment to all the passion that has kept the Columbia300 brand in the winner's circle for more than six generations. The sport of bowling is changing and we're changing with it—but we'll never change our core values.

Because it's Thursday night. The lanes are oiled. The pins are set. And everything else will just have to wait. Even the wife and kids.

WHEN BOWLING IS YOUR LIFE.
