**BULL WHIP**

**WHIP LASH**

**BULL WHIP: 1997 PEARL BALL OF THE YEAR  
 WHIP LASH: THE NEXT GENERATION**

**Pearl Ball Of The Year!**

"...in the opinion of BTM voters, the Bull Whip is

the best ball AMF has ever

produced. With ultimate control, enough power to blast away pins, and the versatility to play on almost all conditions, the Bull Whip easily gets the nod as Pearl Ball of the Year for 1997." *Bowling This Month*, January 1998.

**And Now The Whip Lash.** A denser core along with the all new Super-Flex II™ reactive cover stock gives you the same low RG as the Bull Whip with an even higher rev-rate. So now you can have at least three boards more hook and more response in the heaviest oil. This is a bowling weapon that improves your chances to score better...and while you're at it...have more fun!
