

Judgement Day!

**ROTO
GRIP**
KING OF THEM ALL!

THE APOCALYPSE™

The Apocalypse™ marks the end of average bowling! We've taken the best characteristics of the *Cyclotron II™* core along with a totally new *Rev-elation™* reactive coverstock giving you the ultimate performance on those medium oil patterns.

The *Rev-elation™* coverstock combines the best properties of solid and pearl reactives. Our extensive testing has shown the strong mid-lane traction of a solid reactive combined with the sharp backend motion of a pearl reactive.

A new world of ball reaction awaits!
