

TAKE IT FROM THE PROS:

"There are more and more young bowlers coming into your bowling center every day. As a professional bowler, I know they need a ball that's specially made for them. It's the All American, the ball I helped design for my son, Chris. It's a two-tone rubber ball in the right weights for young bowlers. It helps them score higher, which encourages them to keep on bowling. And that means bigger profits for you. The All American, the junior ball that makes junior pros."

Billy Hardwick

HALL OF FAMEE
