

THE EQUALIZER

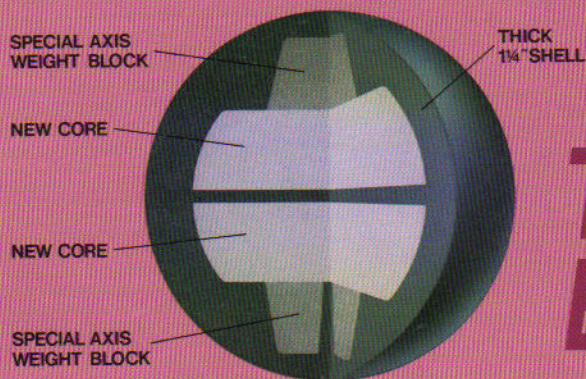

NEW

Neither men nor bowling balls are created equal, Star Trak evens things out with **THE EQUALIZER**, the newest breakthrough in bowling technology... 2 electronically balanced cores; 2 special design weight blocks installed on the axis to put the sweet spots in the right place for you to **STRIKE!**

Delays the Moment of Inertia...

Equalizer's divided axis cores delays the moment of inertia, allowing the ball to keep its inertia until the exact moment the ball enters the pocket. **THE EQUALIZER** increases your odds of striking by 50%.
