

# CURVES AHEAD

## WATCH THOSE CURVES!

The new Black U-Dot from Columbia 300 will be showing lots of curves. The Black U-Dot is designed to add a further dimension to your game — more breaking power!

Years in the making, the outer shell of the Black U-Dot is scientifically formulated to give you more hook or curve, without sacrificing any of the advantages offered by its famous Wine cousin. You still get the world famous Columbia 300 core that guarantees precision balance and control, without the inherent problems of lope and wobble in a 100% urethane ball.

For normal conditions, the Wine Columbia 300 U-Dot is your weapon.

But, when the lanes are oily, or oil "carry down" begins to affect your game, you need the Black U-Dot.

Color: Black

Weights: 12, 13, 14, 15, 16 lbs.

Sold only in Lanes and Pro Shops  
for over a quarter century.
