

# DISCOVER THE PEARL

## A NEW JEWEL AMONG HAMMER® BOWLING BALLS

Now, a fourth dimension is added to the re-nowned Hammer® and Nail® family of bowling balls - the Pearl - a glimmering beauty with a solid urethane shell that is skillfully crafted to strike with the power of a hammer.

Like all Hammer and Nail bowling balls, the Pearl is custom finished and individually tested for hardness, roundness, weight and balance. It is designed to skid further and then hook like a hammer in the back end. Truly a superior ball.

The Pearl Hammer is available in 14-16 pound sizes. Contact your local pro shop to purchase this remarkable new ball.
