

The Power of Four. Roll Rhino.™

The Brunswick® Rhino has proven its pin-pounding power on the pro circuit and in bowling centers around the world.

Now you've got that power times four. Choose from four different Rhinos, each 100% urethane for true, board-gripping path action. With the new Rhinolene™ resilient core for near-zero deflection and low flying pins.

Pick the Rhino to match your style and lane conditions.

Black: goes long and hooks late for light to medium oil. **Grey:** a mid-range hook for medium oil. **Wine:** hooks early for oily lanes. **Blue:** goes long and hooks tight – performs consistently on virtually any lane condition.

Four different urethane formulas for any lane condition. That's why Rhino is the breed of champions.

So unleash your game. Capture a Rhino (or all four) at bowling pro shops everywhere.
