# ORANGELINE

COLLECTION

The Orangeline collection represents a step-down from the high octane power of the Redline collection, yet still delivers plenty of pulse-pounding power to take your game to the next level.

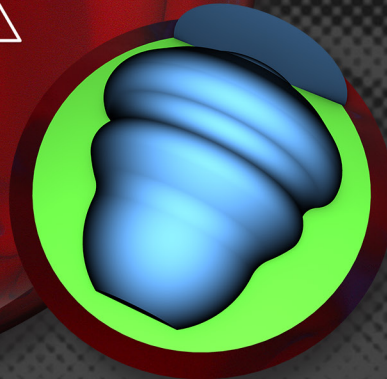

## HYPERSHOCK

TECHNOLOGY

Patent Pending

HyperSHOCK Technology helps power the ball through the pins by controlling the influence they have on the balls motion through the deck. Columbia 300 balls with HyperSHOCK not only get you to the pocket, but drive through like no other balls on the planet.
