

MORE POWER TO YA!

Core Power HRG™

What do you consider when purchasing your next bowling ball? Are you looking for performance and hitting power with innovative features?

STORM's innovation continues with the release of the new Core Power HRG™. Featuring the new Storm Tri-Density core design which delivers a "Higher Radius of Gyration," the Core Power HRG again proves Storm's dedication to excellence.

From the all-new weight block/core system, comprised of three different densities to our very popular PRO-Thane™ LT-Plus™ pearl particle coverstock, let the Core Power HRG™ and Storm® help you exceed your own expectations!

- Coverstock: PRO-Thane™ LT-Plus™ Pearl Particle
- Weight Block: Tri-Density core
- Ball Color: Black/Gold Pearl
- Ball Finish: 1500-grit Polish
- Radius of Gyration: 2.61 (High)
- Differential: .056 (High)
- Hardness: 76-78 Rex D-scale
- Flare: High (6"plus)
- Fragrance: Black Licorice
