**Danger Zone Pro: Proactive Doubles The Danger, a Year of Testing.**

But they're here — the two optimum Proactive formulations for today's bowlers. Our new factory-finishing method and materials pump up the Proactive performance, making the length longer and the hook stronger, right out of the box. The secret: a revolutionary microreplication adhesive capable of shaping jet engine parts to 1/10,000 of an inch. It's precision-engineering at its best. And it's deadly ... for the competition.

It took Throbok® SuperCATS,

exclusive Brunswick

technology and more than

Proactive Doubles The Danger, a year of testing.

**Danger Zone Pro® HP Hook — HPX1.**

Best hook, best finish, and best control — right out of the box.

Character: Proactive HPX1 Surface Finish will microreplicate adhesive 100 Micr. 2.00 / 100 Micr. 2.50 / 100 Micr. 3.00 / Average HC: \$31 / Pack Three Pins: 10 / Item Price: 22.10 (incl. ship) / Length: 3 / Backcut: 11

**Danger Zone Pro® HP Distance — DTX1.**

The most STAY/STAMP of any Zone Pro. It hooks, hangs and adds a ton of length. No.

Character: Proactive DTX1 Surface Finish will microreplicate adhesive 100 Micr. 2.00 / 100 Micr. 2.50 / 100 Micr. 3.00 / Average HC: \$33 / Pack Three Pins: 8.5 / Item Price: 28.12 (incl. ship) / Length: 4 / Backcut: 11
