

EXPLOSIVE DUO

At Roto Grip® we pride ourselves in providing a complete line of bowling balls in both value and performance.

Photon™ core - Delivers the energy behind the Dark Star™ and Riot™. This newly designed core creates strong mid-lane read and increased entry angle to the pocket.

Dark Star - Our Ultimate Vision™ pearl coverstock boasts a higher coefficient of friction and surface texture for added traction in the oil and superior backend.

Riot - The Ultimate Vision™ solid reactive coverstock gives you fierce surface topography and greater coefficient of friction.

Whether Dark Star or Riot, either spell trouble for your opponents!
