

# THE WOLF PACK

- 3.6 g/cm<sup>3</sup> Zirconium Core
- 6.0 g/cm<sup>3</sup> Tungsten Graphite™ Weight Block
- 10.25 lb. Mega Bite™ Reactive Resin™ Shell\*

On the prowl and looking to devour the competition. The dark blue sanded **Wolf** and the newest **Grey Wolf** pearlized are the most advanced bowling balls in Ebonite history. The dark blue sanded **Wolf** is designed to get the maximum response on medium to heavy oil. The **Grey Wolf**, with a shiny pearlized Mega Bite™ Reactive Resin™ shell, goes down the lane longer and snaps harder on lighter oil lane conditions.

Both balls feature the same zirconium core, **Tungsten Graphite™** weight block, and 10.25 pounds of Mega Bite™ Reactive Resin™ shell. Available in weights 12-16 pounds.

\* IN FINISHED 14, 15, and 16 POUND BALLS
