

# MORE POWER TO YOU.

The tour-proven LT-48® and Brunswick's incredible new Edge®. They're two of our most powerful missiles.

And when lanes are on the oily side, these scoring powerhouses are at their best.

The source of the LT-48's scoring punch is a specially concentrated core that reduces ball deflection while increasing roll-through at point of impact. And its porous rubber cover grabs even the oiliest of lanes for pinpoint accuracy.

Brunswick's Edge, on the other hand, has a special urethane cover for unmatched hooking consistency roll after roll. And its technologically advanced

rubber core means more drive through the pins. And more action.

Put Brunswick's LT-48 or new Edge in your bag. You just can't beat them.
