

NOT OF THIS EARTH

FEAR FACTOR FACTOR

FEAR FACTOR™

In the last year, our development team has conducted top secret research that has ultimately culminated into the creation of the new, super aggressive MONSOON™ coverstock.

Not stopping there, our team infused a Medium Traction (MT) particle load within the MONSOON™ and then integrated it with the highly evolved Triple Disk RAD3™ weight block.

This combination of low RG and a strong preferred spin axis generates a powerful reaction in oil that increases entry angle to the pocket for pin action that's out of this world!

TECHNICAL DATA

Coverstock: MONSOON™ MT
Weight Block: RAD3™ Triple Disk Technology
Ball Colors: Gold, Emerald, Ruby
Ball Finish: 800-grit Matte
Radius of Gyration: 2.49 (Low)
Differential: .060 (High)
Mass Bias Differential: .020
Durometer: 74-76 Rex D-Scale
Flare Potential: High (6" Plus)
Fragrance: Plum
Weights: 10-16 lbs.
