FOR PEAK PERFORMANCE

As the initial release of the new Fire Line™
the new **Fired Up™** will change the way you think
about bowling!

The searing combination of the all-new Twin-V™
weight block and a thick Reactor™ coverstock
optimizes backend friction that burns through the pins.

If you're looking for professional quality, with
premium performance at a smokin' price, then it's
time to get **Fired Up!**
