

"Reliability builds confidence...
I feel a Storm comin'!"

— Norm Duke

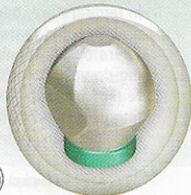

R2X
COVERSTOCK

STORM
THE BOWLER'S COMPANY™

GRAVITATIONAL FORCE.

Completely reconstructed, the new Gravity Shift™ sports the reformulated R2X™ coverstock which uses special blends of materials to provide outstanding durability and performance. At the heart is the new Shape-Lock™ HD (High Density) core, where we have increased the density value and lowered the core volume. This effectively produces superior mid-lane roll and promises consistent ball reaction in the ever-changing modern lane conditions.

By the time your opponents realize the Gravity of their situation... it'll be too late!
