# THE WHEEL TO WIN!

THE MATRIX SERIES™ BY EBONITE

Winning requires the talent to execute and the desire to win. And some awesome equipment to get you there. Introducing the most powerful members of the Matrix family, the Matrix Trimax III and TPS III. Armed with our new Big Wheel™ coverstock, the Trimax III will enable you to open up the lane, get around the corner, and provide more backend hook and power than its revered kin, the Trimax I and II.

The TPS III? It combines the early revving attributes of the TPS I with the stronger backend of the TPS II to wreak havoc when the lanes are juiced. Check them out at your pro shop today. Because if you want to clean up the lanes, these balls got game.
