

(mēt - ē - or), n.

a celestial body

entering the earth's

atmosphere with great

speed, becoming hot

and glowing with the

friction of its passage

through the air,

smashing both pins

and opponents with

resounding blows.

IDEAL FOR GLOW IN

THE DARK BOWLING!!

STORM

Meteor Storm

Here's a ball with attitude. Hurl this mid-priced ball at the pins for glowing results! The Meteor encompasses FE2 technology with strong flare potential in this value priced ball.
