12-13 lb.	2.66 (High)	.037 (Med)

PERFORMANCE is the key to success and Roto Grip® delivers once again with the release of the RS-P™. This new Mid-price STAR delivers the performance that most High price bowling balls can't compete with.

We have taken the unbeatable Rotary III™ core and surrounded it with an aggressive pearl particle coverstock. The combination of enhanced traction along with the power of a low RG/ high differential core will provide relentless reaction from foul line to the pit.

As always we have given you a versatile product that can be drilled for a variety of players. The surface can also be easily adjusted with the use of Scotch-Brite pads or polishes.

*So what are you waiting for? Get your STAR today!
Keep on building your own private galaxy!*
