SECOND DIMENSION™

ENTER ANOTHER LEVEL

The next level of performance, is the Second Dimension.™ With the success of the Continuum™ Core in the original Dimension,™ we decided to focus our attention on the other half.

We first pearlized, then reformulated the R2X™ coverstock by infusing a physically altered mica known as Enhanced Traction Mica (E.T.M.). Our tests showed a 15% increase in surface profile, and as the ball traveled down the lane, we saw a 10% jump in friction values.

Amazingly, these surface values remained consistent all the way from the factory polished to a 1000-grit Abralon™ finish. This technology offers maximum flexibility by adding length and increased entry angle to the pocket on medium to lighter volume patterns.

Welcome to the Second Dimension.

TECHNICAL SPECIFICATIONS

COVERSTOCK: R2X™ Pearl with E.T.M. (Enhanced Traction Mica)

WEIGHT BLOCK: Continuum™ Core

BALL FINISH: 1500-grit Polish

DUROMETER: 73 – 75

FLARE POTENTIAL: 5"–6" (Med-High)

BALL COLOR: Midnight Sky/Malibu/Wine

FRAGRANCE: Apple Pie

WEIGHTS: 12 – 16 lbs.

SKU# TDD

LBS.	RG	DIFF.
16	2.49	.049
15	2.51	.048
14	2.55	.045
