Sonic X™

The Sonic X™ is Roto Grip's newest addition into the mid-priced market. It uses the all new Sonic "Boom" Core™ with a new pearlized coverstock.

This High RG core with low Differential gives you more length with an arcing breakpoint. The Sonic X gives you a smooth transition from the oil to dry allowing you to control the breakpoint.

Sure Grip Pearl™ Reactive surrounds this core, creating a stiffer coverstock for those dry lane conditions.
