

# BEYOND SPEED... SUPER SONIC!

# SUPER SONIC

## **SUPER SONIC™**

Roto Grip® has broken the "Barrier" with the all new **Super Sonic™**. This addition into the entry-level mid-price market, shatters all the previous standards in performance.

The Super Sonic's newly designed **X-1™** core creates the strongest mid-lane motion along with unparalleled backend reaction at this price point.

**Sure Grip II™** is the coverstock of choice for this high powered machine. This translates into traction, angle, and pin carry.

*Go ahead, shatter your own records!*

**ROTO GRIP**  
KING OF THEM ALL!
