

Lane **Masters**™

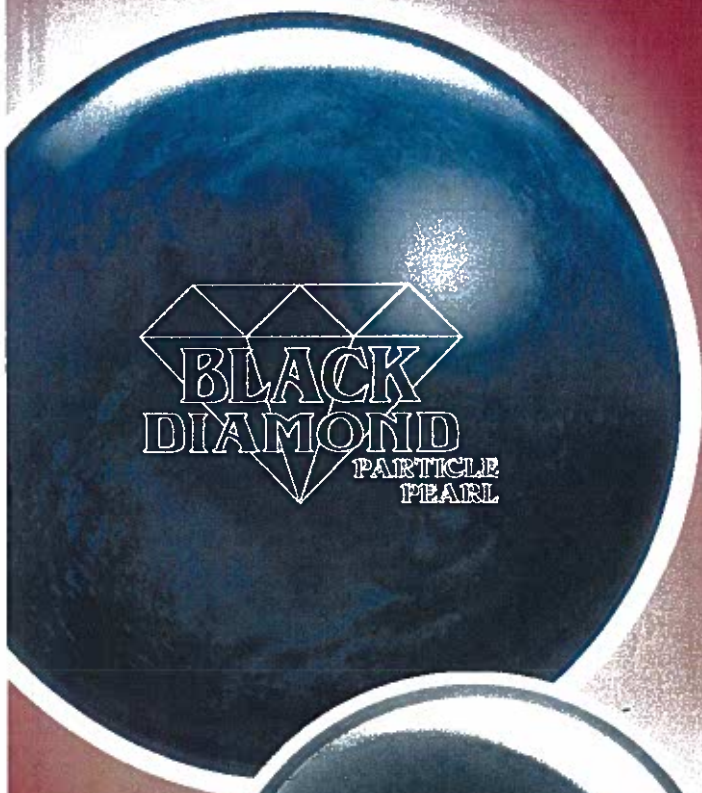

**2010 CATALOG**

# LEGENDS™ Signature Series

The pinnacle of solid resin 2-piece bowling balls.

## Black Diamond™ Prt Prl

**NEW\***

Color: Black Sapphire  
Core: Dynasty™  
Cover: Traction™ Diamond Pearl  
Type: Dual Particle Pearl  
Reaction: Two unique particles and a high differential core create our strongest look on oil carry down.

## Black Diamond™ Reactive

**NEW**

Color: Onyx  
Core: Dynasty™  
Cover: Traction XPR™  
Type: Solid Reactive  
Reaction: The combined versatility of the coverstock and core provide a great opportunity to start and finish with this ball.

## Black Diamond™

Color: Solid Black  
Core: Dynasty™  
Cover: Traction™ Diamond  
Type: Solid Particle (Med. Load)  
Reaction: The most angular solid particle ball we have ever released.

# Max Performance

Lane Masters™ famous hitting power combined with maximum durability.

**NEW\***

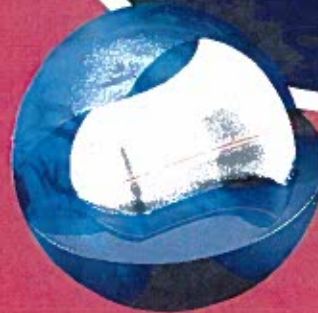

## Terminator: Resurrection™

Color: Cobalt Blue / True Blue  
Core: Terminator™  
Cover: Endurance™ P2  
Type: Dual Particle (Heavy Load)  
Reaction: Like a well oiled machine, it's back and ready to handle heavy oil conditions with ease.

## Xtreme Damage™

Color: Ruby / Gold  
Core: Impact™  
Cover: Endurance™ X-Treme  
Type: Particle Pearl (Med. Load)  
Reaction: A purely aggressive back end motion for an extremely devastating hit.

**NEW**

## Xtreme Damage™ Solid

Color: Black / Violet  
Core: Impact™  
Cover: Endurance™ Hybrid  
Type: Particle Hybrid (Heavy Load)  
Reaction: Get ready to inflict some damage that never ends with a stronger particle, hybrid technology, and a great midlane read.

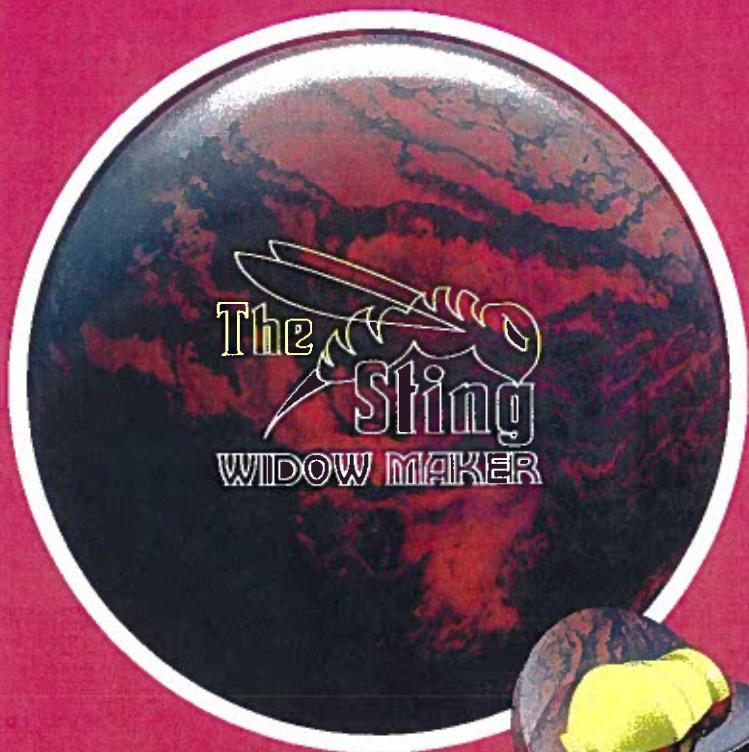

Lane Masters™

# Max Performance

Lane Masters™ famous hitting power combined with maximum durability.

### Ultimate Power™

Color: Violet / Sunburst  
Core: Power Centric™  
Type: Reactive Pearl  
Reaction: The pearlized cover and low Rg core create a smooth mid-lane read with maximum energy retention.

### Sting Widow Maker™

Color: Black / Red  
Core: Buzz™  
Cover: Venom™ Hybrid  
Type: Particle Hybrid (Med. Load)  
Reaction: A true benchmark ball. The Venom™ Hybrid creates a nasty backend bite.

**NEW\***

\* Available Fall 2010

## Box Finish Ball Reaction Comparison

This chart illustrates where each ball has been designed to perform in an "out of the box" state, which oil pattern the ball is generally intended for, and the overall ball reaction one might expect from that particular ball. Of course, many variables come into play, and no two bowlers are exactly alike, so your individual results may vary. The focus is to see how each ball relates to one another in building your bowling arsenal.

### Volume of Oil

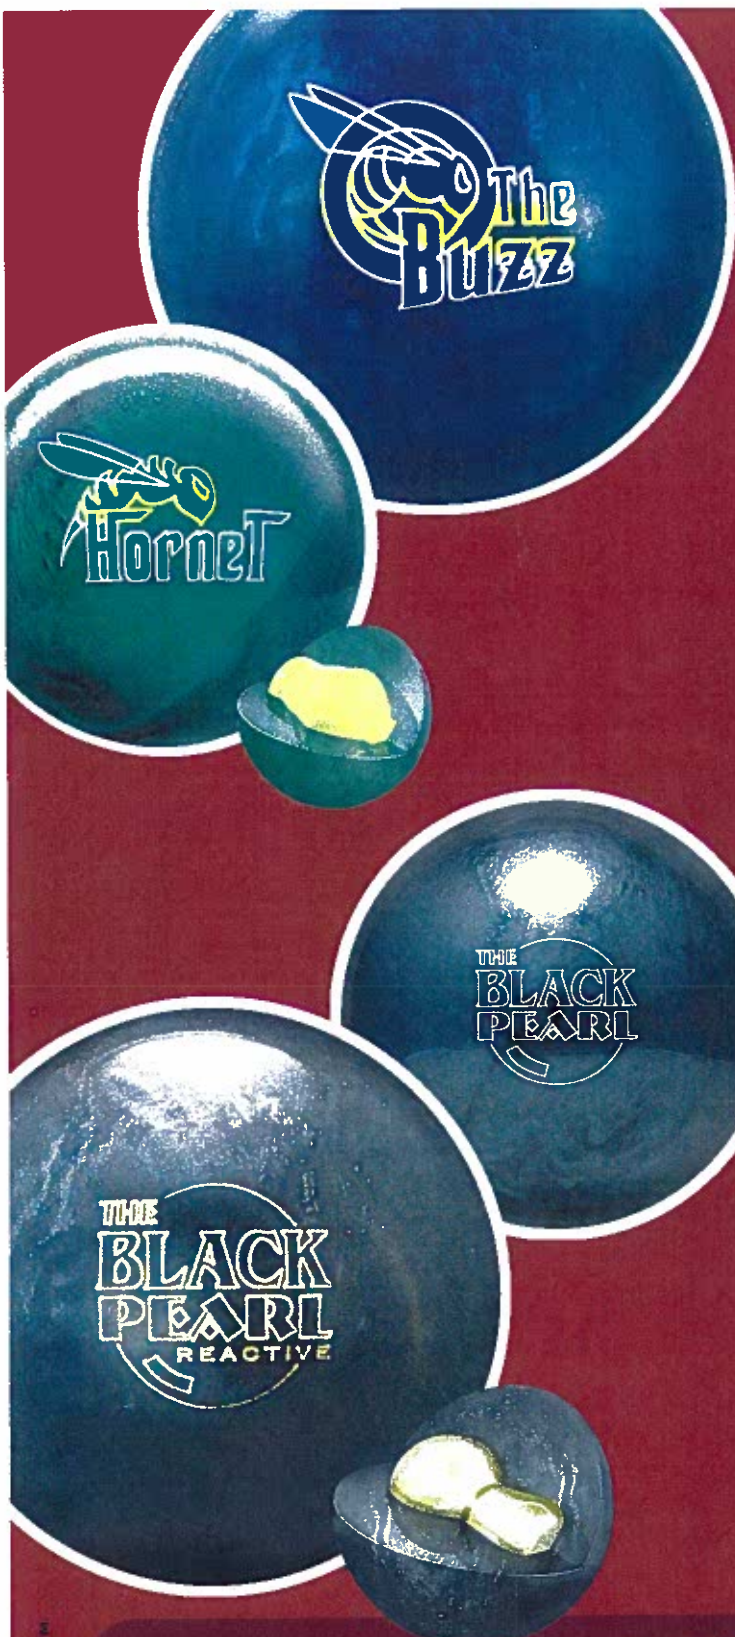

- **Ball Line:** *Lanes*™ Signature Series / *Max* Performance / *Plus* Performance
- **Ball Motion:** Refers to the overall hook shape, ranging from angular (skid/snap) to arcing (smooth, constant motion).
- **Volume of Oil:** Refers to the lane condition (amount of oil) the ball will typically perform best on for the largest percentage of bowlers.

**Masters™**

# Hall of Fame

Lane Masters™ greatest performers.  
Back for a limited time!

### Buzz™

Color: Midnight Magnesium  
Core: Buzz™  
Cover: Evolution™ Pearl  
Type: Reactive Pearl  
Reaction: Smooth through the heads with a strong back end reaction.

### Hornet™

Color: Emerald Green  
Core: Buzz™  
Cover: Evolution HD™ Pearl  
Type: Reactive Pearl  
Reaction: Designed with a higher durometer for maximum performance on lighter oil conditions.

### Black Pearl™

Color: Black Pearl  
Core: Dynasty™  
Cover: Traction Reactive XLP™  
Type: Particle Pearl (Light Load)  
Reaction: A versatile ball with a clean and progressively stronger transition from skid to hook.

### Black Pearl™ Reactive

Color: Charcoal Gray  
Core: Dynasty™  
Cover: Traction Reactive™ Pearl  
Type: Reactive Pearl  
Reaction: Longer than the Black Pearl™ with a sharper back end movement.

## Accessories

The goods to keep you looking and performing your best

\*Additional charges may apply for 2XL - 4XL.

### Sport Polo Shirt

**Lane Masters™ Exclusive Design**  
The Dry Mesh material wicks away moisture for a cool, comfortable fit. Includes embroidered Lane Masters™ logos on the left chest and sleeve.

- Color: Black with red / gray
- Material: 60 / 40 cotton poly blend
- Sizes: **Call for Availability\***

### Classic Polo Shirt

A classic look that never goes out of style. This pre-shrunk, heavyweight 5.6 oz. shirt includes an embroidered Lane Masters™ logo on the left chest.

- Color: Black
- Material: 50 / 50 cotton poly blend
- Sizes: S - 4XL\*

### Hand Conditioners

Super absorbent micro fiber material keeps hands dry for a consistent grip.

- Grip Bag (5.5" x 3.75")
- Grip Ball (3" Diameter)

### Micro Fiber Towel

Excellent for drawing moisture and oil away from the surface of your ball. Machine washable. Safe for use with most ball cleaners and polishes.

- Size: 16" x 23.5"

### 2 Ball Classic Tote

#### Limited Availability

Our original design totes feature embroidered logos, non-slip shoulder straps, and a large shoe compartment.

- Color: Lane Masters™ - Black / Silver  
LEGENDS™ - Black / Gold
- Material: 600 Denier polyester / polyvinyl / synthetic leather

# Sport Bags

Value with Style!

### Sport Bag Features:

- Durable 1200 Denier polyester
- 1680 Denier polyester trim with reinforced stitching
- Compression molded Dobby material (excluding 1 ball tote)
- Lane Masters™ rubberized name tag
- Lane Masters™ logo
- **Limited 1 year warranty**

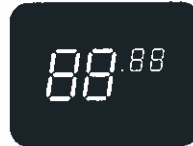

### 3 Ball Sport Roller

- Mens U.S. size 15 vented shoe compartment
- Locking retractable handle with molded grip
- Strong, reinforced lift handles
- Heavy duty injection molded base
- 5" beveled wheels
- Mesh storage pouch

### 2 Ball Sport Roller

- Mens U.S. size 15 vented shoe compartment
- Retractable handle with molded grip
- Strong, reinforced lift handle
- Compact injection molded base
- Sturdy wheels with rubber tread
- Mesh storage pouch

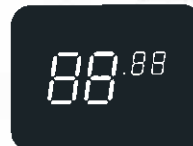

### 3 Ball Rolling Sport Tote

- Heavy duty recessed wheels
- Heavy duty pull strap
- Embroidered carry handle
- Transparent top for easy ball identification
- Accessory compartment
- Double ended zippers

### 2 Ball Sport Tote

- Embroidered padded shoulder strap
- Embroidered carry handle
- Transparent top for easy ball identification
- Shoe/Accessory compartment
- Heavy duty hardware
- Mesh storage pouches

### 1 Ball Sport Tote

- Use as a 1 ball tote or attach to any of our 2 or 3 ball roller bags for added capacity.
- Velcro attachment straps
  - Sturdy shoulder strap
  - Transparent top for easy ball identification
  - Accessory pouch

# Surface Tuning System

## Complete Ball Maintenance

### High Performance Ball Cleaner

Specially formulated by the same in-house chemists who make our lane conditioners and cleaners. Our unique blend of cleansing agents get deeper into the surface of today's high performance coverstocks, drawing out more dirt and oil than ordinary ball cleaners.

- Cleans tough jobs with little to no effort
- Safe for all types of bowling balls
- Evaporates quickly
- Leaves no oily residue

\*Note - Lane Masters™ Surface Tuning System products are not approved for use during USBC competition.

### I-Tack™ Ball Cleaner

Get a grip on the lanes with our Instant Tack Ball Cleaner. We tweaked our already powerful Ball Cleaner with a specially formulated "tack agent" for a super tacky feel any time.

- Quickly revives balls that have lost their reaction
- Safe for all types of bowling balls
- Cuts through tough jobs fast
- Leaves a super tacky feel

### Pure Clean™ Ball Wash

A super concentrated, deep cleansing ball wash specifically formulated to emulsify deep down dirt and lane oil. Just mix with hot tap water in a bucket, place the ball to be cleaned in the solution for 15 min., drain, and dry. All that's left to do is to watch and enjoy your renewed ball reaction!

- Super Concentrated - Mix 1 oz. per 1 gal. of water!
- Draws out dirt and lane oil
- Leaves no soapy residue

## **HIGH PERFORMANCE BOWLING BALLS**

***Hand Crafted in the U.S.A.***

From the first ball produced in 2002, through our latest creations, Lane Masters™ has been hand crafting every resin ball to leave our factory. Our expert craftsmen produce each ball in small batches at our new Stockton, CA manufacturing facility. This hands on approach to manufacturing begins with the pouring of weightblocks, and continues all the way through, until the factory finish has been applied.

Of course, all this wouldn't matter much if we didn't use quality materials. Our exclusive formula of grade "A" resins resist wear and are less susceptible to oil soaking. Other premium additives include particles derived from carbon, one of the hardest known substances. We have even gone as far as to use real diamond particles in some of our balls!

The fact is, no matter which Lane Masters™ ball you choose, one thing will hold true. Each ball receives the same high quality craftsmanship and will perform at a consistently high level for a longer period of time.
