

# The Thunder rolls on.

## Introducing the Thunderbolt M/D.™

One year ago, Ebonite® promised you a new plateau of excellence, and the Thunderbolt™ was introduced. Its devastating performance on oily lanes remains unchallenged.

Now, the Thunder rolls on with the Thunderbolt M/D for medium-to-dry lanes.

The new Thunderbolt M/D provides the same devastating power of the Thunderbolt, because it has the Thunderbolt's dynamically balanced Power Core.™ And it's packed in Ebonite's exclusive new M/D Cover, which contains a

special additive that makes it hunt down the pocket and hit harder with less deflection on medium-to-dry lanes.

The unique Power Core™ increases gyroscopic action for less deflection and more striking power!

Ask your pro about the only ball for medium-to-dry lanes that combines maximum power with maximum control. The only ball for medium-to-dry lanes good enough

to wear the name Thunderbolt. The new Thunderbolt M/D from Ebonite.

*"We tested it on medium-to-dry lanes. The results were great. We love it."*

*Walter Ray Williams Jr.*

*Jeanne Madden*
