

# There's a level of performance that separates the good from the great.

## The new Ebonite Thunderbolt™ puts power in your hand.

Ebonite has always been on the leading edge of bowling technology. Now, Ebonite has teamed up with Carmen Salvino to create a brand new edge for better bowlers: The new Ebonite Thunderbolt.

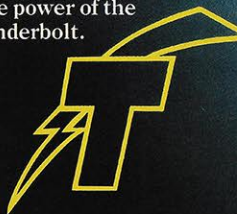

Using Ebonite's advanced technology, Carmen designed a new Urethane formulation that causes the Thunderbolt to "bite" into heavy oil and produce a sharper hook.

And the exclusive Power Core™ increases gyroscopic action, allowing the Thunderbolt to roll farther before hooking, so you get less deflection and more striking power.

Ask about the Ebonite Thunderbolt at your pro shop or bowling center. Because the difference between good and great is the power of the Thunderbolt.

New Urethane Formulation Delivers More Bite in Heavy Oil. Exclusive Power Core™ Increases Gyroscopic Action.

Earl Anthony, All Time PBA Title Holder

**EBONITE**  
INTERNATIONAL

More than one quarter of all the Match Play Finalists on the PBA Winter Tour rolled the Thunderbolt!

Where advanced technology has striking results.
