

ALL NEW! ONLY FROM ROTO-GRIP

THE TRA»KER

TRA•KER: A totally new concept in bowling ball design

TRA•KER: Combines the best performing features of polyester and urethane in one high performance package

- Polyester feature extends early skid roll
- Urethane feature maximizes back-end action
- This combo delivers explosive power to the pins
- and *ONLY* Roto-Grip makes it

SO LITTLE DEFLECTION ON IMPACT THAT IT LITERALLY DRILLS ITSELF INTO THE PINS!

TRA•KER's blended formula of *polymers* has never been used before. *Truly, the best of both worlds!*

- Polyester economy
- Superior traction
- Urethane performance
- Total control

TRA•KER, the unique blend of polymers adapts to a wide variety of lane conditions. Available in a broad range of weights and featuring ROTO-GRIP's Complete Weight Distribution. You're in control with TRA•KER.
