

# KINETIC OBSIDIAN

THIS ONE IS ROCK SOLID

Once again, we've improved our famous Kinetic series of bowling balls. The Kinetic Obsidian uses our Modified Kinetic Core, combined with a solid version of our DR-7 (Delayed Reaction) Coverstock. The combination of the two provides excellent traction in the midlane with an aggressive change of direction at the backend of the lane, perfect for medium to heavy oil patterns.

**CORE:** MODIFIED KINETIC | **COVERSTOCK:** DR-7 SOLID | **COLOR:** OBSIDIAN | **FINISH:** 500/2000 ABRALON™  
**CONDITION:** MEDIUM TO HEAVY OIL | **REACTION:** STRONG MIDLANE AND BACKEND
