The Frankie May Signature Gryphon harnesses the power of the G-3 core design and surrounds it with the newly developed React-A-Tack solid coverstock.

This reactive coverstock uses a revolutionary tackifying agent to create more traction in the oil, yet it still allows the ball to have very aggressive backends. This ball is extremely versatile and can be adjusted to fit all but the extreme oil patterns. For more information, call us at 1-888-827-2211 or visit our website at www.visionarybowling.com.

"After bowling on the PBA tour, winning several PBA titles, and drilling over 50,000 bowling balls, I have finally found a ball that I am willing to put my name on. This new ball that Visionary has created is absolutely the most versatile ball I have ever thrown, and quite possibly the best ball ever produced."
