Dear Customer,

Visionary Bowling Products, LLC, is proud to announce the availability of our newest ball called the Raven Attack. This ball uses the same Ogre HDC core found in the Raven and Raven Invasion, and is surrounded by the Implex II Solid coverstock. This solid formulation increases the traction in the oil, creating a smooth, heavy rolling ball that has great continuation through the pin deck.

The Raven Attack will be best suited for heavier house conditions, and flutter patterns where you need a more consistent, smoother motion.

LOW RG: 2.53"
