XTC Tour Nugget

XTC

- Core- Hi density light bulb core for early roll and maximum consistency low RG and trace flare. A great ball for heads that are breaking down and wet dry conditions.
- Track flare potential - low
- Hook potential - front end moderate back end moderate.

- Core- Hi density blow mold stack core, gets through heads clean with strong roll on back end for consistency and predictability.
- Track flare potential - Moderate
- Hook potential - Moderate - High
