# INTRODUCING... ULTRA ANGLE

---

## A New Standard of Bowling Ball Excellence!

There's never been a bowling ball quite like the Ultra Angle! With its unique asymmetric core the Ultra Angle converts throwing energy more efficiently into ball speed at the point of pin impact. This greater ball speed generates increased pin action to effectively create a "wider strike zone" and improve scoreability.

From its incomparable hooking and hitting ability to the uncharacteristic "flare" of the ball track the Ultra Angle will knock down pins for you like no other ball you've ever rolled.

AMF's triumphant achievement...the Ultra Angle...a new standard of bowling ball excellence.

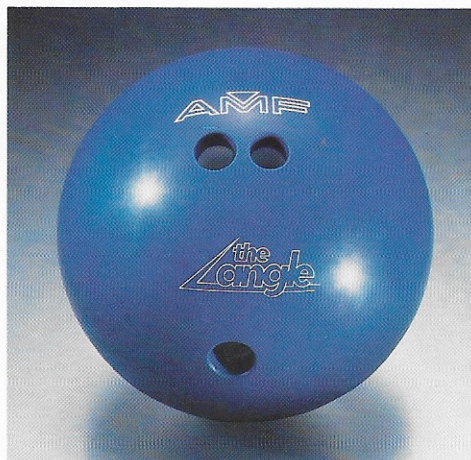

ULTRA ANGLE  
033-0150  
15, 16 lbs.

# **angle** BOWLING BALLS

Now there's an Angle for all lane conditions.  
Select the one that's right for you.

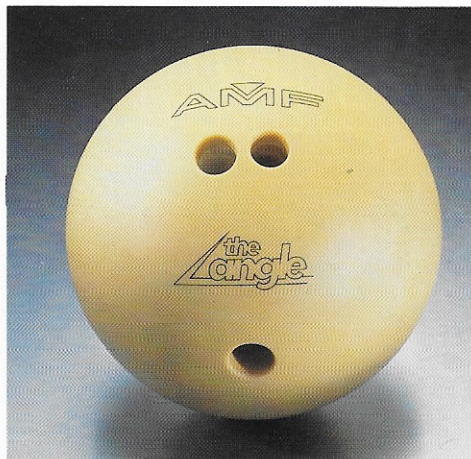

#### **BLUE ANGLE —**

New ProSand™ surface designed to provide more hook and control on average to oily lane conditions. 033-0145 Blue Urethane 12, 14, 15, and 16 lbs.

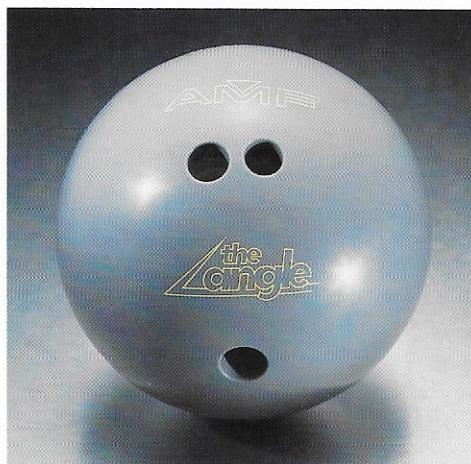

#### **GOLD ANGLE —**

Precision ground to hook in heavily oiled conditions. 033-0142 Gold Urethane 12, 14, 15, and 16 lbs.

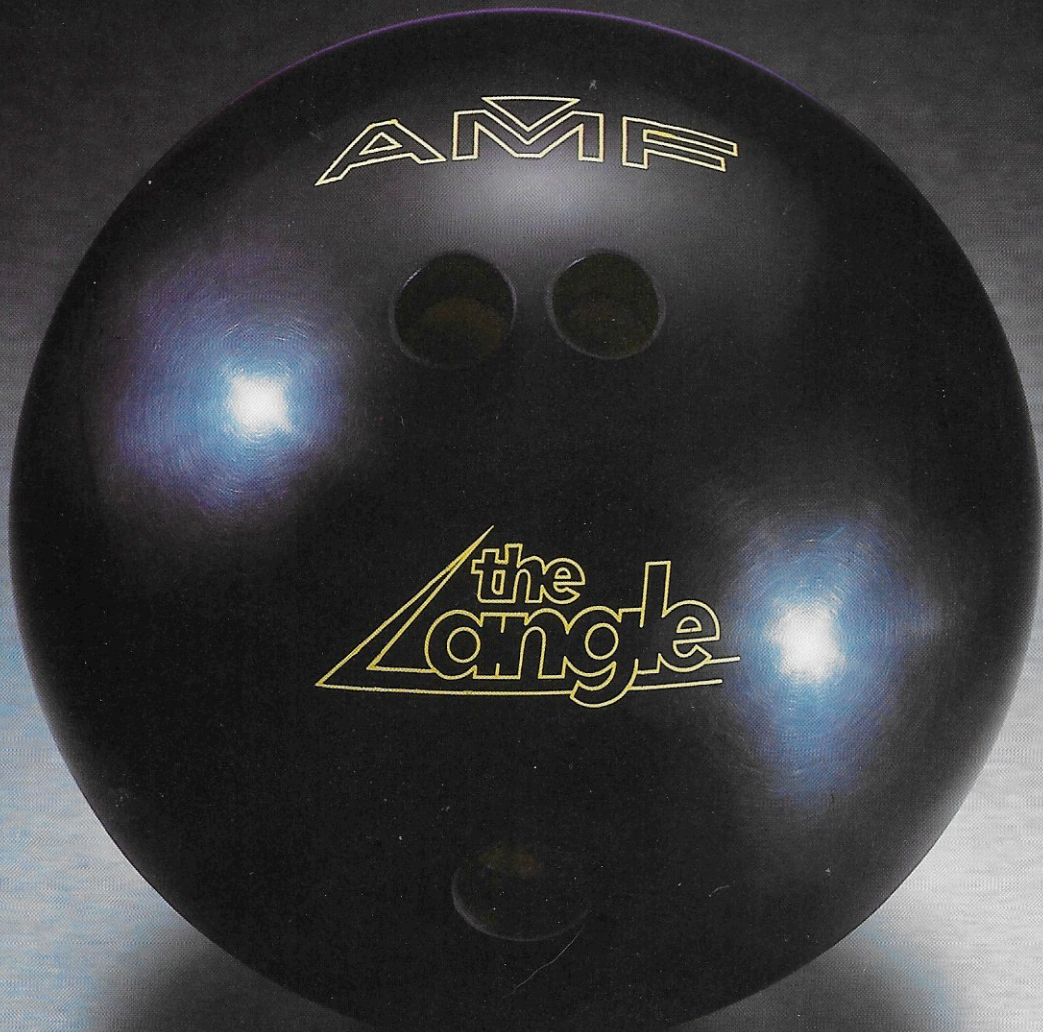

#### **GRAY ANGLE —**

Urethane power and control even on the driest lanes. 033-0141 Gray Urethane 12, 14, 15, and 16 lbs.

#### **The Winningest Ball Of All**

Choose the number one ball in bowling today. The Angle with its unique AMF urethane formula, provides the ultimate in power and control, regardless of the lane condition. And for the last four years the Angle has been used by more winners on the Winter Pro Tour than any other ball. No other ball hooks like it. No other ball hits like it. When performance counts, you can count on AMF.

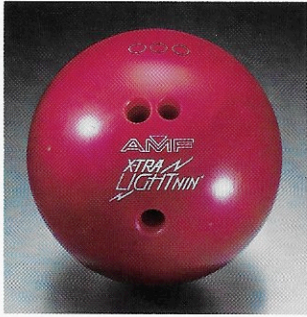

**BLACK ANGLE —**

The first urethane ball - specially formulated to perform on most lane conditions. 033-0139 Black Urethane 12, 13, 14, 15, and 16 lbs.

### X-tra Lightnin' and Lightnin' Series

The X-TRA Lightnin' models 6 and 7 pounds provide optimum durability and quality in a lightweight ball to enable even the youngest bowler to learn proper form and have fun at the same time.

Designed especially for young bowlers and others who prefer a lightweight ball, but want AMF quality and performance too. ONLY Lightnin' balls offer all of this, plus AMF's exclusive 3-dot, built-in guidance and tracking system. The 3-dot system lets the bowler see the ball skid then roll down the lane. By counting the number of revolutions (9 to 12 are most desired), you can see if your roll is consistent by the tracking pattern the dots create.

### The Classic Pro Roll

For well over a decade the AMF Classic Pro Roll has been a favorite of bowlers. Today it is a legend that continues to grow because it is still one of the hardest working, best performing balls in its class. The built-in 3-dot guidance system shows the way to better scores.
