 Sizes available in M, L, XL, XXL.

**KE  
 BAG**

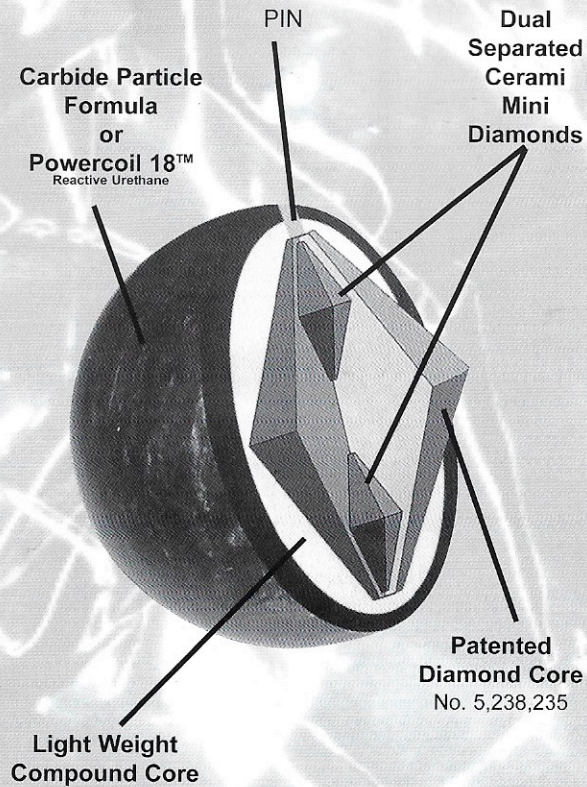

- \*Separate shoe compartment
- \*Oversized accessory pouch
- \*Rugged Cordura material
- \*Made in the U.S.A.

### GRAVITY BALANCE SYSTEM

This system specially designed for Axis and Leverage weights. You'll be able to enhance the performance, predict the reaction, duplicating this from ball to ball.

*The patented diamond shape bowls more 300's and 800's per ball, than any other shaped core...!!!*

*By eliminating wasted material, this dynamically shaped gyroscopic diamond core rotates faster and longer, generating the most energy. This means devastating power at the pins. Because this diamond shaped core is symmetrical from top to bottom it rolls and scores more consistently on a wider variety of lane conditions.*

*Putting all of this inside our "Carbide Particle Formula" and reactive urethane coverstocks gives you the reaction and power needed for you to win.*
