COLUMBIA 300®

BOWLS THE WORLD OVER®

HIGH PERFORMANCE

NEW! TOTAL CHAOS™
 #N25-10-XX (12-16 lbs.)
 #N26-10-XX (10-11 lbs.)

NEW! TOTAL CHAOS™

You're on a roll with our latest TEC™ (Texture Energy Control) ball. Its high density polymer core sends it on a roll early with a strong break point. Featuring the first multi-colored TEC cover with microscopic balloons in the shell, Total Chaos™ tears through oil and flips on the backend. The low density offset mass bias puck gives it more flare potential and hook. A terror on the lanes.

NEW! MASS CHAOS™

Hook with the best. Strut your stuff with the most aggressive ball on the backend of the lane. Inside the large polymer core is a dense, offset internal puck that acts as a third weight block to create mass bias. With our patented TEC™ coverstock, a high Rg core, a medium-high differential Rg, and the mass bias puck, it's a champ.

NEW! MASS CHAOS™
 #N03-10-XX (12-16 lbs.)
 #N04-10-XX (10-11 lbs.)

COMPLETE CHAOS™

Hail the conqueror! We've out-hooked ourselves with this TEC™ creation. We've beefed up traction by adding microscopic balloons in the SUPER-FLEX™ shell. Complete Chaos™ has a stronger backend reaction and a strong Bullet Core that creates maximum track flare. Watch it grab the lane at the end of the oil and make a sharp turn at break point. Dynamite!

HOOK RATING: 25

EXCHAOS

EXTREME CHAOS™
#M59-50-XX (12-16 lbs.)
#M60-50-XX (10-11 lbs.)

EXTREME CHAOS™

We've created a monster. This TEC™ ball features microscopic particles in SUPER-FLEX™ resin. You can never have too much traction. Extreme Chaos™ goes longer than Chaos™ with a stronger backend reaction. The modified TEC surface projects it through the track as it dries up from lane play. Here's your large hooking, all-purpose ball.

HOOK RATING: 22

HIGH PERFORMANCE

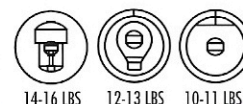

CHAOS™
#M20-02-XX (12-16 lbs.)
#M21-02-XX (10-11 lbs.)

CHAOS™

Chaos™ sends opponents into disarray. Featuring our killer TEC™ coverstock, Chaos delivers more control and more reaction. Our proven SUPER-FLEX™ reactive cover, combined with innovative particle TEChnology, gives the ball a strong arcing reaction with continued hook and an edge over heavy oil conditions.

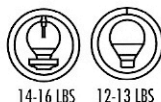

HOOK RATING: 23

NEW! CUDAS™ 2000

Revolutionary! Holo-Flex™, the all-new reactive shell, gives our new Cuda™ 2000 zing. A new, synthetic additive that's soft and sparkly, Holo-Flex extends above the ball's surface, resulting in a unique texture. The shell gets down the lane better and flips harder at break point. You can move inside as the heads break down.

HOOK RATING: 18

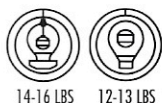

NEW! CUDAS™ 2000
#N37-51-XX (12-16 lbs.)

Chaos™	Carbide Black Red & White logo		14-16 lbs.: Double cylinder core; Fired undrillable Titanium Ceramic core 12-13 lbs.: Inverted bulb shape/integral core with Titanium satellite 10-11 lbs.: Round core with pancake weight block with Titanium core	2.508	0.052		
Cuda™ 2000	Plum Pearl Pink logo	Pearlized Holo-Flex™ incorporating reactive cover with new holoflake particles	14-16 lbs.: Core-in-a-core technology with enlarged flip block 12-13 lbs.: Inverted bulb shape/integral core	2.526	0.048	Ranges between 0" and 5" from center-of-gravity	10-16 12-16

Start with the highly successful Messenger™ Ti core and surround it with the most aggressive coverstock. You end up with Messenger TEC™. The core has proven itself in the Messenger Ti. Now we added a modified TEC™ shell with suspended glass particles for added traction in oil. You get a ball that will hook in oil in our mid-range Messenger family of balls. This ball starts hooking in the oil and continues to drive to the pocket on the backend.

LIGHT OIL MEDIUM OIL HEAVY OIL

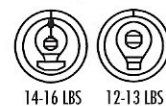

NEW! MESSENGER™ TEC
#N56-10-XX (12-16 lbs.)

MESSENGER™ TITANIUM
188-48-XX (12-16 lbs.)

Beneath a classy finish lies a rolling aggressor. This Messenger™ out-hooks any of its predecessors. More hook for your bucks. The SUPER-FLEX™ cover delivers maximum hook in a reactive shell. With its strong midlane arc, the ball has punch on the back end for a greater entry angle. The hardened Titanium nugget at the center puts pins at its mercy.

MID-RANGE PERFORMANCE

MESSENGER™ PEARL
#M47-67-XX (12-16 lbs.)
#M48-67-XX (10-11 lbs.)

MESSENGER™ PEARL

Watch this ball deliver a pearly swirl of action. It flies in the face of dry lanes. SUPER-FLEX™ resin coverstock blankets the all-purpose core to ensure all-weather performance.

HOOK RATING: 14

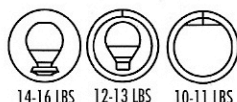

MESSENGER™
#M26-15-XX (12-16 lbs.)
#M27-15-XX (10-11 lbs.)

MESSENGER™

The message is: Cut through the oil. Oil doesn't stand in the way of the Messenger™. Plus, it turns fast at break point thanks to the aggressive SUPER-FLEX™ coverstock. And with the Messenger, you won't bust your bowling budget.

HOOK RATING: 15

TI/BEAST® TITANIUM

Rarin' to go! The Ti/Beast® comes out fighting. A Titanium satellite is encased in up to 2.5 inches of high-friction, non-reactive urethane. It won't be intimidated by dry heads or wet-dry conditions. Designed for medium oil, it can be polished for drier lane conditions. No sweat.

3-PIECE

NEW! SCOUT™ BLACK SOLID
#N44-02-XX (10-16 lbs.)

NEW! SCOUT™ BLACK SOLID

This ball earns its medals when put to the test. It's tough and durable. And the price is right up your alley. As a three-piece, non-reactive urethane performer, it ranks with the best. Think of it as the Black Shadow™ pumped. Scout's honor.

HOOK RATING: 11

NEW! SCOUT™ REACTIVE PURPLE SOLID
#N33-51-XX (10-16 lbs.)

NEW! SCOUT™ REACTIVE JADE PEARL
#N33-15-XX (10-16 lbs.)

NEW! SCOUT™ REACTIVE

This Scout's got the right stuff. With our SUPER-FLEX™ reactive urethane cover and an offset puck in the core that creates mass bias on the opposite side and more differential Rg. At break point, it has a sharper turn. On dry conditions, it's got more hook at the backend.

HOOK RATING: 13

NEW! PEARLIZED SCOUT™ REACTIVE

Don't let its highly polished iridescence fool you. Like its fellow Scout™ Reactive, it's got the killer combination of our SUPER-FLEX™ reactive urethane cover and the offset puck in the core for a sharper break point turn and more backend hook.

HOOK RATING: 13

NEW! SCOUT™ REACTIVE BLACK/RED PEARL
#N33-48-XX (10-16 lbs.)

BLUE DOT®

Like an old, trusted friend, Blue Dot® belongs at your side as your steady spare ball. It's still the best. Even the driest lane conditions are no match for that high-tensile polyester cover. On every shot, your Blue Dot's reliably steady.
