

**BECAUSE YOU ARE
A SERIOUS BOWLER...**

You own your own bowling equipment because not being in control of even the smallest aspect of your game, is unthinkable. You spend many hours at the lanes. You have uncanny knowledge of the effects of rotation. You even understand complicated laws of physics behind bowling and you love it. So when you buy your bowling accessories, you depend upon the best performance-building accessories out there. The brand that has proven itself to be the leader in bowling products year after year after year. *You only trust Robby's.*

ROBBY'S REVS MODEL #420

The new standard in lightweight, adjustable power. Made of feather-light duraluminum, the Robby's Revs is a breakthrough in wrist support, because it conforms to your exact needs. The extended finger support provides maximum power for oilier lane conditions. Lateral adjustments allow your hand to be in position to alter the amount of forward roll and spin on the ball. Four forward wrist-cup positions allow for rev control.

Robby's Revs is available for left or right hand, in small, medium, large and extra-large.

HOW TO FIT IT.

Put the finger strap in place, then slide fingers in with the back of the hand against the foam lining. Tighten wrist strap for comfort. Use multiple adjustable positions for both vertical and horizontal angles to desired release position.

HOW TO FIT IT.

Put the finger strap in place, then slide fingers in with the back of the hand against the foam lining. Tighten wrist strap for comfort. Use multiple adjustable positions for both vertical and horizontal angles to desired release position.

ROBBY'S REVS II MODEL #422

The new standard in lightweight, adjustable power. Made of feather-light duraluminum, the Robby's Revs II is a breakthrough in wrist support, because it conforms to your exact needs. The shorter design provides medium power for light to medium lane conditions. Lateral adjustments allow your hand to be in position to alter the amount of forward roll and spin on the ball. Four forward wrist-cup positions allow for rev control.

Robby's Revs II is available for left or right hand, in small, medium, large and extra-large.

NEW!

ROBBY'S REVS III MODEL #423

The new standard in lightweight, adjustable power. Made of feather-light duraluminum, the Robby Rev's III is a breakthrough in wrist support, because it conforms to your exact needs. The extended index finger support accentuates the wrist rotation through the release to create increased length and back-end hook angle by creating more side roll. Lateral adjustments allow your hand to be in position to alter the amount of side roll and spin on the ball. Four forward wrist-cup positions allow for rev control.

Robby's Rev III is available for left or right hand, in small, medium, large and extra-large.

HOW TO FIT IT.

Put the finger strap in place, then slide fingers in with the back of the hand against the foam lining. Tighten wrist strap for comfort. Use multiple adjustable positions for both vertical and horizontal angles to desired release position.

ROBBY'S LEATHER ORIGINAL

BLACK - MODEL #110

BROWN - MODEL #111

Durability and ultimate comfort. The Robby's Leather Original has all the outstanding features of the Vinyl Original, with all the benefits that only leather provides. Increased durability means more strikes for your money. The soft feel of these leather supports almost feels like a second skin, allowing you to concentrate on what's in your hand rather than what's on it.

THE ROBBY'S LEATHER PLUS has all the outstanding features of the Robby's Leather Original, plus it has a straight metal support that is even longer and firmer. The added length and strength ensures a straight forearm. This added support also translates into an even stronger release position.

Leather Original and Leather Plus are both available for the left or right hand, in petite, small, medium, large and extra-large.

HOW TO FIT THE ROBBY'S LEATHER ORIGINAL AND ROBBY'S LEATHER PLUS:

Please see the Robby's Vinyl Original description for more design information and fitting instructions.

ROBBY'S LEATHER PLUS

BLACK - MODEL #210

BROWN - MODEL #211

ROBBY'S COOLMAX ORIGINAL

BLACK - MODEL #120

BLACK/BLUE - MODEL #121

HOW TO FIT THE ROBBY'S COOLMAX ORIGINAL AND COOLMAX PLUS:

Please see the Robby's Vinyl Original description for more design information and fitting instructions.

Cool comfort wins, hands down. Here's the Robby's Original Automatic Positioner in a model featuring a remarkable fabric that's like a personal air conditioner! It actually draws moisture away from the hand so the heat of performance pressure won't keep you from a spectacular score.

The fast-drying Coolmax model provides the superior, patented metal support of all Robby's Originals, with the added assurance of dryness and comfort that can offer a competitive edge. The Coolmax Plus combines the benefits of the Robby's Coolmax with the longer, firmer design of the Robby's Plus.

Coolmax Original and Coolmax Plus are both available for the left or right hand, in petite, small, medium, large and extra-large.

ROBBY'S COOLMAX PLUS

BLACK - MODEL #220

BLACK/BLUE - MODEL #221

ROBBY'S VINYL ORIGINAL MODEL #100

Robby's Automatic Positioner is specially designed so you throw your ball with precision accuracy and power. When set with the thumb on top of the ball, it produces the normal 11 o'clock - 5 o'clock position, enabling the ball to swing out in a true pendulum. At the bottom of the pendulum swing, the Original supports your wrist and lets the thumb release cleanly. Both back and front metal supports maximize wrist strength while allowing the ideal wrist angle for superb delivery.

Robby's Vinyl Original is available in white, brown, blue and red, for left or right hand, in petite, small, medium, large and extra-large.

HOW TO FIT THE ROBBY'S VINYL ORIGINAL:

Slip thumb into thumb hole. Top of the hole should rest comfortably between thumb and index finger. Use two center fingers to hold curved metal in place in palm of hand. Reach under and "walk" center strap around hand, up to Velcro. To fasten back strap, press back slightly so back metal end rests against wrist. Bring back strap around and up to Velcro. Affix top strap in the same way, without relaxing pressure. Adjust all three straps as necessary for comfort. Avoid pulling back or down on the Automatic Positioner unit. It needs to be loose across the thumb hole for proper placement.

ROBBY'S ROYAL TOUCH MODEL #105

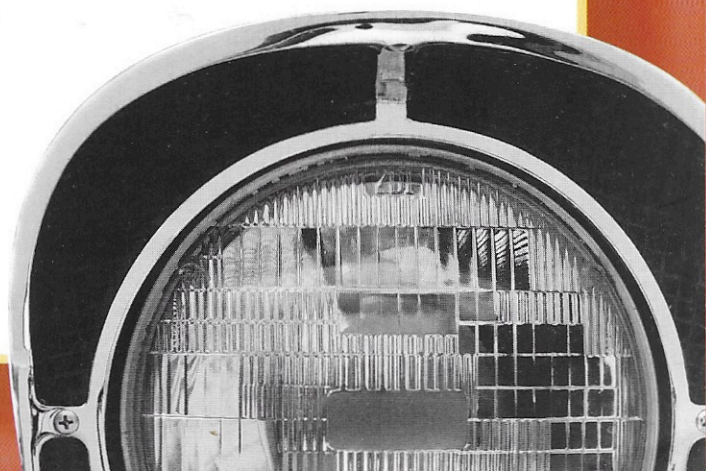

Soft to the touch, strong on performance. We've combined the proven, patented design of the Robby's Original Automatic Positioner with the softest, most leather-like vinyl available so you can get great comfort with the power and accuracy you expect from the best bowling supports. Like all Robby's Original models, the Royal Touch not only supports your wrist, it actually teaches hand and wrist muscles the correct position for spectacular delivery, so your skill and strength increase with each wearing!

Robby's Royal Touch is available in dark brown, burgundy, spruce green, doe brown and galaxy blue vinyl, for left or right hand, in petite, small, medium, large and extra-large.

HOW TO FIT THE ROBBY'S ROYAL TOUCH:

See the Robby's Vinyl Original description for more design advantages and fitting instructions.

ROBBY'S INTIMIDATOR MODEL #550

Robby's Intimidator features tiny rubber microdots along the fingers and palm to provide maximum gripping power and control. The result is a more powerful release and consistency.

Robby's Intimidator is available for the left or right hand, in small, medium, large and extra-large.

HOW TO FIT THE ROBBY'S INTIMIDATOR:

Insert thumb into thumb hole while slipping hand inside glove. Wiggle fingers to secure a comfortable fit. Close hook and loop around wrist for snug support.

A PRO'S TIPS

- Beginning bowlers: Robby's Originals are like personal trainers. Use them to strengthen hand and wrist muscles into patterns that produce power, accuracy and consistent performance improvement.
- Seasoned bowlers: You've developed good wrist and hand strength on your own?

Congratulations! Consider joining other strong players who keep a Robby's Original Automatic Positioner at the ready in their bowling bags. It might be just the edge you need someday in an important competition. And, like a computer pro who always keeps a backup power source, you'll be glad you came prepared.

ROBBY'S GLADIATOR MODEL #400

This 9" by 4" back wrist support keeps the forearm straight and extends over the knuckles for better finger and wrist positioning. Your hand stays behind the ball, giving more forward revs. Develop your own technique with this proven control system. For instance, by stroking up on the side of the ball, you'll gain more side revolutions and increased angle of entry. Finger strap can wrap two, three, or all four fingers to keep them comfortably centered in alignment with the long metal support. A palm metal feature adds to the support.

Robby's Gladiator is available in navy blue velveteen fabric, for left or right hand, in petite, small, medium, large and extra-large.

HOW TO FIT THE ROBBY'S GLADIATOR:

Slip thumb into thumb hole. Fold over palm and wrist area. Attach palm strap and wrist straps on opposite side. Readjust straps for comfort and fit. Position finger strap between knuckle and first finger joint. Pull across two, three or four fingers, as preferred, and attach on opposite side.

**HOW TO APPLY
ROBBY'S SURE RELEASE:**
Simply apply a patch to the area of skin needing protection. Thoroughly moisten the patch and surrounding skin with the transparent liquid. Allow 20 seconds to dry for protection that lasts and lasts.

**ROBBY'S SURE RELEASE
MODEL #600**

The most popular brand for serious bowlers. Sure Release solves the problem of skin irritations due to binding, dragging, hanging or rubbing of the thumb or fingers during release. Use it to prevent or treat a painful, performance-reducing skin irritation. The special packaging filters out fluorescent lights, prolonging shelf life. It's also a great aid for irritation caused by gardening, needlepoint, mechanic's work and household repair chores.

Robby's Sure Release is available in 1/4 fluid ounce bottles, with brush applicator and a generous supply of patches.

**ROBBY'S NO WET
FOOT SHOE COVER
MODEL #610**

Protect your bowling shoes by slipping a pair of these covers on them when you're leaving the lane. They're made of high-quality vinyl with an elastic top to keep water, mud and dirt off your shoes.

Robby's No Wet Foot Shoe Covers are available in cow print, blue, red and black, in small, medium, large, extra-large and double extra-large. See following size chart.

**ROBBY'S NO WET FOOT
