Global Assault™

This one is lethal! The Concave Radius High Torque™ weight block is encapsulated in a core to create lower RG for increased REV and read in the mid-lane. The Super Sure Grip™ reactive coversock gives you added traction in medium to heavy oil.

- COVERSTOCK: Super Sure Grip Reactive™
- FINISH: 800 Sanded
- RG: 2.48
- DIFFERENTIAL: .055
- HOOK POTENTIAL: 21 (25 Scale)
- LENGTH: 5 (10 Scale)
- BACK-END: 8 (10 Scale)

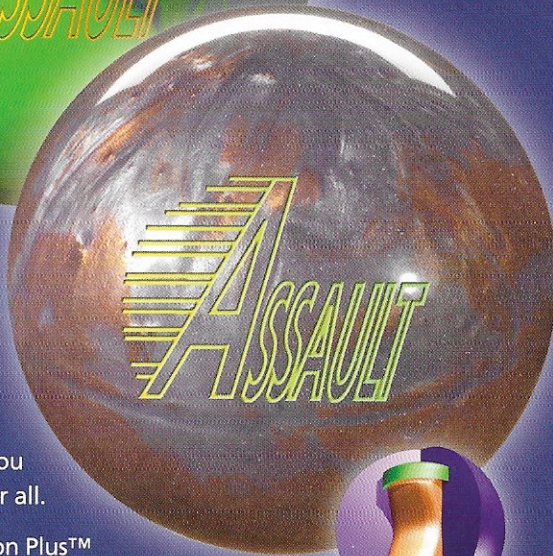

14-16 lbs

Assault Pearl™

This weapon continues to provide the strength you need to conquer those medium to dry lanes with carry-down. The Concave Radius™ High Torque core combined with Pearlized Sure Grip Traction Plus™ Particle coverstock gives you the traction and hitting power to conquer all.

- COVERSTOCK: Pearlized Sure Grip Traction Plus™
- FINISH: 2000 polished
- RG: 2.50
- DIFFERENTIAL: .055
- HOOK POTENTIAL: 22 (25 scale)
- LENGTH: 7 (10 scale)
- BACK-END: 10 (10 scale)

14-16 lbs

14-16 lbs

Fuel™

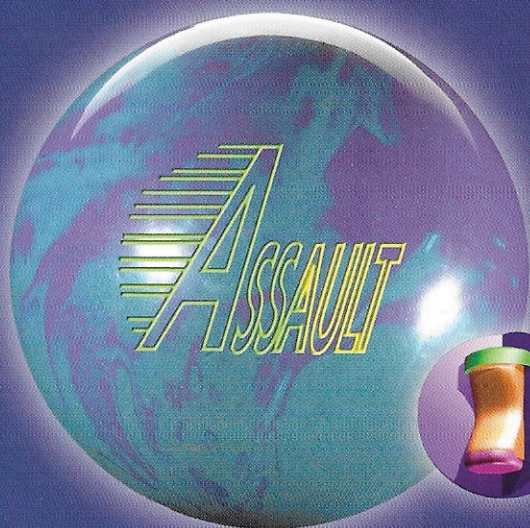

Technology is constantly changing and Roto Grip® is on the forefront with the new Fuel™.

The Fuel has an all new Cyclotron™ core with strategically placed cyclotronic rings located on the surface of the weight block and the Synchrotron™ mass controller located on the inside to enhance rev and read in the mid-lane with a sharper breakpoint.

Wrapping this core is the all new Super Sure Grip Traction Plus™ Particle coverstock containing a medium percentage of accelerated particles for increased traction in the heaviest of oils.

The time has come when science and technology can definitely help your game and the Fuel is the answer.

- COVERSTOCK: Super Sure Grip Traction Plus™ Particle
- FINISH: 1000 grit polished
- RG: 2.52 (Low)
- DIFFERENTIAL: .050 (High)
- HOOK POTENTIAL: 25 (25 scale)
- LENGTH: 5 (10 scale)
- BACK-END: 10 (10 scale)

14-16 lbs

Assault™

The Concave Radius™ High torque weight block is surrounded by Sure Grip Traction Plus™ particle coversotck providing constant motion for STRONG Hook-&-Roll characteristics. If you're in search of hook on those oily conditions, here is the answer!

- COVERSTOCK: Sure Grip Traction Plus™
- FINISH: 1000 sanded
- RG: 2.50
- DIFFERENTIAL: .055
- HOOK POTENTIAL: 24 (25 scale)
- LENGTH: 4 (10 scale)
- BACK-END: 9 (10 scale)

BOWLING BALLS

12-16 lbs

Silver Streak™

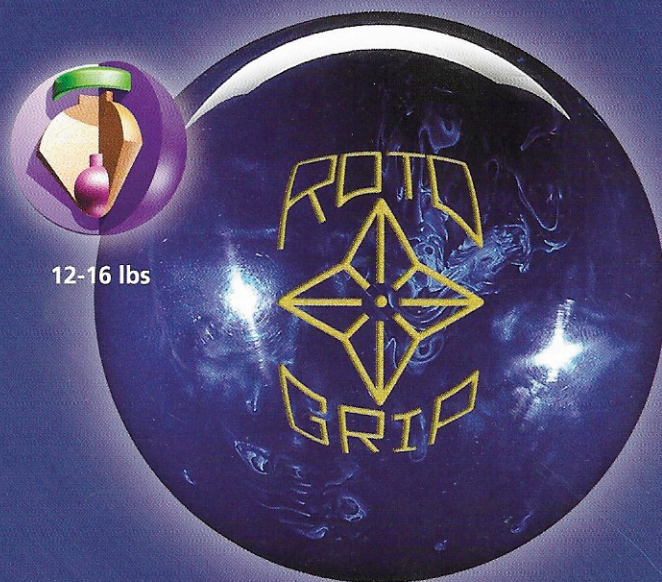

Classic Looks and Price with Cutting Edge Performance. This ball is a must in everyone's bag. It utilizes the performance proven Rotary Core™ inverted with a smaller REV slug for length and control. The Sure Grip™ reactive coverstock compliments the smooth controllable reaction.

- COVERSTOCK: Sure Grip™ Reactive
- FINISH: 1500 polished
- RG: 2.53
- DIFFERENTIAL: .040
- HOOK POTENTIAL: 18 (25 scale)
- LENGTH: 7 (10 scale)
- BACK-END: 8 (10 scale)

RetroRoto Blue Pearl™

This is not your father's Roto Grip. The new performance proven Retro has knocked down titles all over the World. The Sure Grip™ pearlized reactive coverstock combined with Rotary™ core technology is touted as one of the most versatile balls on the planet. It is soon to be a classic for the new Millenium.

- COVERSTOCK: Super Sure Grip™ Pearl Reactive
- FINISH: 1500 polished
- RG: 2.57
- DIFFERENTIAL: .052
- HOOK POTENTIAL: 19 (25 scale)
- LENGTH: 7 (10 scale)
- BACK-END: 9 (10scale)

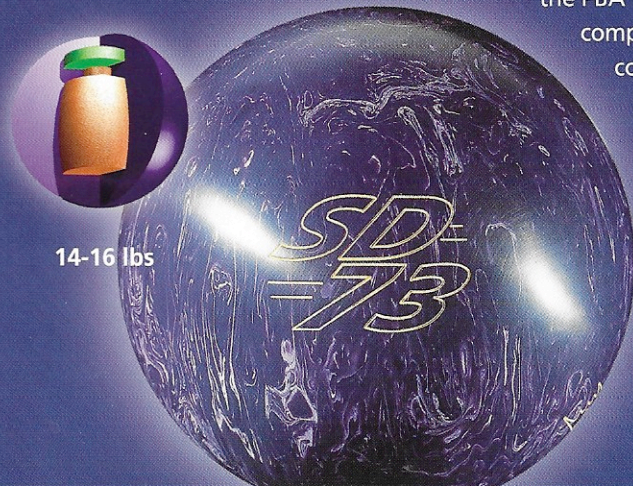

12-16 lbs

SD73™

This ball put Roto Grip back on the map. They even banned it from the PBA Tour. They have since changed their standards and allowed it for competition. The internal construction creates dynamic energy, which combined with the Aggressive coverstock, provides acceleration through the mid-lane and a backend reaction with unequaled power and control.

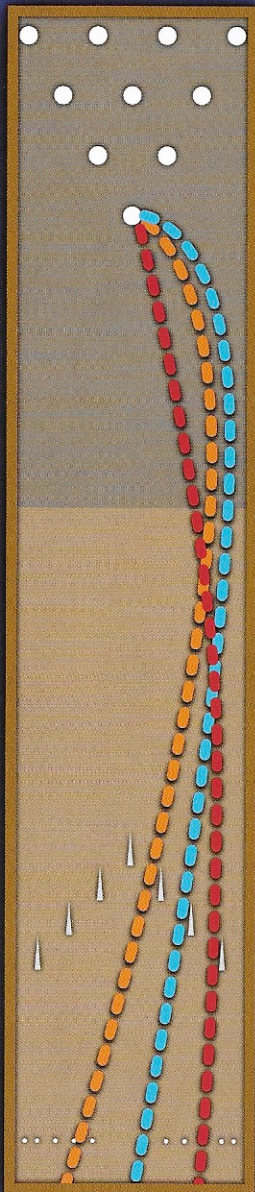

- COVERSTOCK: Sure Grip™ Reactive
- FINISH: Wet sanded 800-grit
- RG: 2.50
- DIFFERENTIAL: .075
- HOOK POTENTIAL: 20 (25scale)
- LENGTH: 5 (10scale)
- BACK-END: 10 (10 scale)

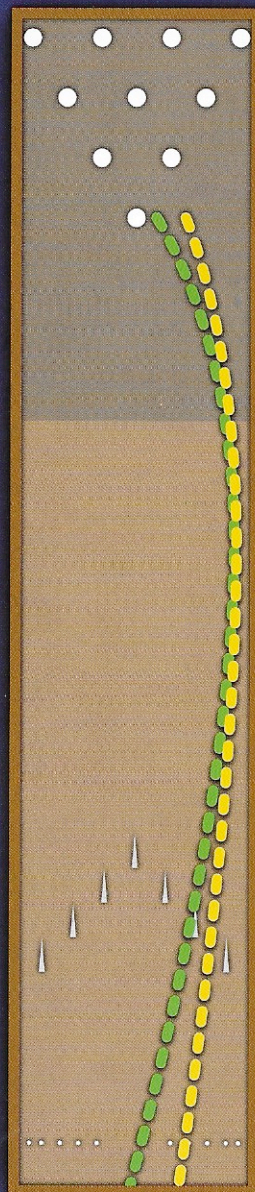

14-16 lbs
