**EBONITE** 

2005-2006 **ACCESSORIES CATALOG**

WHEN YOUR BALL HITS THE LANE, MAKE SURE THERE'S NOTHING GETTING IN THE WAY OF ITS TRUE PATH TO THE POCKET. THAT'S HOW THE POWERFUL CLEANERS AND BALL CARE PRODUCTS FROM EBONITE HELP YOU SHINE. ALL EBONITE CLEANERS, TOWELS AND SCRUBS ARE APPROVED FOR THE USBC FOR USE DURING COMPETITION, WHEN IT MATTERS MOST. SO NOW YOU GET THAT CLEAN ROLL THAT LEADS RIGHT TO VICTORY LANE.

**POWERHOUSE™ ENERGIZER BALL CLEANER**

**A Model #130**

If your high-tech ball seems sluggish lately, shock it back to life with the energizing effects of this high-powered cleaner.

- Approved for use during USBC competition
- Revives natural tack to the ball surface for ultimate lane-gripping power
- Biodegradable, citrus-based, strong degreasing formula
- Removes lane oil, dirt, belt marks, even tape residue
- Fast drying
- For use on all reactive resin and particle technology coverstocks

**POWERHOUSE™ FACTORY FINISH POLISH**

**B Model #140**

There's nothing like a factory finish to bring down the curtain on your opponents. And it's available any time you want it.

- Takes 800-grit sand to original factory polish reaction
- Quick, one-step process
- Restores power and predictability for: medium ball speeds on medium oil conditions, faster ball speeds on lighter oil conditions, slower ball speeds on medium to heavy conditions

**POWERHOUSE™ EXTENDER BALL POLISH**

**C Model #135**

On drier lanes, a smoother ball surface is needed to retain energy. Extend your power over the more demanding lane conditions.

- Provides high luster, smooth surface to increase length
- Microfine polishing compound
- For all reactive coverstocks
- Delays energy release for: lighter oil conditions, shorter oil patterns, slower ball speeds, lower axis rotation players

**POWERHOUSE™ BALL CLEANER**

**D Model #125**

A clean ball is a happy ball. All-purpose cleaner for all plastic and urethane balls.

- Approved for use during USBC competition
- Deep cleans and removes lane oil, dirt and rubber marks
- Retains ball surface needed for making consistent shots
- Safe to use on all bowling balls

**POWERHOUSE™ SAND BLASTER**

**E Model #147**

Get more teeth in heavier oil and more bite back in your game.

- Use on particle and reactive resin bowling balls
- Sands to 400-grit finish
- Removes lane oil and dirt
- Apply by hand; ball spinner not required
- Produces best results with: faster ball speeds in medium to heavy oil, medium ball speeds in heavy oil

**POWERHOUSE™ PARTICLE POLISH**

**F Model #150**

High-tech particles that just don't want to be polished easily have met their match.

- The fastest, most effective particle polish on the market
- Takes 800-grit sand to a smooth, polished surface
- Quick, one-step process
- Increases length for increased energy retention
- Removes lane oil and dirt
- Polishes all particle technology coverstocks, regardless of manufacturer

**POWERHOUSE™ MATTE FINISH**

**G Model #144**

Restore that factory smooth, sanded finish to your bowling ball.

- Use on particle and reactive resin bowling balls
- Restores factory reaction for 1200-grit and 15-micron sanded bowling balls
- Apply by hand; ball spinner not required
- Smoothes out the breakpoint on fresher backends and lane oil patterns
- Produces best results with: slower ball speeds in heavy oil, medium ball speeds in medium to heavy oil, faster ball speeds in medium oil

### PRO-TECTOR GLOVE

#### **F** Model #875

Searching for that perfect feel? Is your hand's size and texture affected by weather conditions?

- Full finger design ensures consistent feel of fingers in the ball regardless of temperature and humidity
- Reduces wear and tear on fingers
- Reduces swelling and shrinkage during bowling
- Individual hook-and-loop closures tighten middle and ring fingers to keep glove from pulling during release
- Made of synthetic leather with breathable finger gussets for ultimate comfort
- Available for right hand; in small, medium, large and extra-large

**Z-LOC 1™**

**A Model #ZL1**

- Designed for medium to heavy oil, the extended finger produces more rotation of the wrist during the release, generating increased length and backend hook angle by creating more side roll.
- Straight wrist position with extended index finger support aids bowlers with inadequate side roll to create sustained hook and a greater angle of entry into the pins
  - Constructed of lightweight duraluminum
  - Allows finger movement
  - Easy to remove between frames
  - Helps bowlers suffering from wrist pain maintain a consistent release
  - Available for right or left hand; in small, medium and large

**Z-LOC 2™ STRAIGHT**

**B Model #ZL2**

- Designed for medium oil conditions, the shorter design provides for medium power and consistent forward roll and lateral rotation.
- Straight wrist position for enhanced ball movement under normal oil conditions
  - Allows finger movement
  - Easy to remove between frames
  - Helps bowlers suffering from wrist pain maintain a consistent release
  - Available for right or left hand; in small, medium and large

**Z-LOC 4™ STRAIGHT WITH SUPPORT**

**C Model #ZL4**

- Designed for medium to heavy oil, the longer extension design supports the fingers to produce more forward roll and less skid.
- Straight wrist position like the Z-LOC 2™ with extended steel finger support for maximum lift
  - Easy to remove between frames
  - Consistent arm, wrist and hand position
  - Helps bowlers suffering from wrist pain maintain a consistent release
  - Available for right and left hand; in small, medium and large

**STRIKER WRIST POSITIONER**

**D Model #450**

- Never let wrist pain stand in the way of a consistent release again.
- Extended finger support for maximum lift
  - Available in blue velvet for right or left hand
  - In extra-small, small, medium, large and extra-large

**EBONITE POSITIONER**

**E Model #516**

- The perfect support—puts your hand in the proper position for a consistent release.
- Soft velvet fabric provides ultimate comfort
  - Adjusts easily to fit any hand
  - Steel palm and backhand reinforcements
  - Leather reinforced palm for increased durability
  - Padded interior lining
  - 3 hook-and-loop strap closures
  - Available in blue velvet for right or left hand; in extra-small, small, medium, large and extra-large

**ULTRA PRENE™ SUPPORTS**

**F Model #1701 Wrist Support**

**G Model #1705 Forearm Support**

- The most versatile neoprene wrist and forearm support available can be used to relieve tendonitis pain. Holds in warmth to keep muscles loose.
- Stabilizes tendons and muscles to prevent injury or protect existing ailment
  - Easy-on support
  - Generous straps to fit most bowlers
  - Top-grade sports loop maintains new look

**WRIST SUPPORT LINER**

**H Model #825 Wrist Support Liner**

**I Model #828 Extra-Long Wrist Support Liner**

- Keeps your wrist support fresher longer and extends its life by reducing the amount of perspiration absorbed by the support. The design of the extra long model is a perfect match for heavier duty wrist supports.
- Redesigned to add comfort while wearing wrist support
  - Soft, absorbent terry cloth
  - One size fits all
  - Assorted colors
