THE INNOVATOR IN

BOWLING TECHNOLOGY, IS

PLEASED TO BRING YOU

OUR BOWLING

CATALOG FOR

2007-2008. WE

HAVE 7 BALLS

THAT ARE

PROVEN TO

BURN UP

THE LANES

AND PUSH

YOUR

SCORES

HIGHER.

COMBINE

ANY OF OUR

BALLS WITH

OUR FULL LINE

OF APPAREL AND

ACCESSORIES AND

YOU WILL STEP UP

YOUR GAME..!!

After careful and tedious testing. Lane #1, the innovator in bowling ball technology, has created a powerful new force unmatched by the competition -- The G-Force Supernova. A nuclear fusion of our patented Buzzsaw diamond and W.A.S (Warped Asymmetrical Symmetrical) cores, this dense neutron star packs a heavy, high velocity impact with a controlled continuous arc for a stellar explosion of strikes and scores. Step up your game like never before and ask yourself... How many G's Can You Handle?

G-FORCE EVOLUTION

Conquer the competition and evolve beyond the average bowler with Lane #1's G-Force Evolution. On medium to drier lanes, the new Bleeder pear reactive coverstock wastes no energy in the front, bleeding off all its energy on the backend. Combining this with Lane #1's famous W.A.S., warped asymmetrical symmetrical diamond core, produces an unforseen amount of G's when cornering down the lane, creating an evolution of strikes. Light years ahead of the competitioin, how many G's can you handle?

COLOR: MERLOT

FINISH: HIGHLY POLISHED

AVAILABLE WEIGHTS: 12, 13, 14, 15 & 16 LBS.

G-FORCE NEBUL/

From the outerreaches of the bowling galaxy comes the G-Force Nebula, featuring all new Bleeder pearl particle coverstock bleeds off energy energy earlier, keeping it from flying past the breakpoint on medium to heavy oiled lanes. Packed with our patened W.A.S. warped asymmetrical symmetrical diamond, the Nebula pulls an unforseen amount of G's when cornering down the lane, producing strikes at the speed of light. How many G's can you handle?

G-FORCE SOLID

Are you ready for the speed and power of the new G-Force? Lane #1 unveils its all new W.A.S core, featuring a new warped asymmetrical symmetrical design unmatched by the competition. This high energy W.A.S diamond produces a mass bias not found in any symmetrical core design. All this energy inside our lane gripping solid Dentonator coverstock cuts throuh the heaviest oils, then pulls and unforseen amount of G's the pins can't withstand when cornering downt he lane. How many G's can you handle?

AVAILABLE WEIGHTS: 12,13,14,15 & 16 LBS.

URANIUM HRG

LANE #1 restructures the original Uranium core by removing its dense inner component. Our new hollow-diamond core maintains its super-dense outer casing while replacing the center with a new isotope material. With the new Detonator coverstock, LANE #1 merges the hitting power of a lower RG with the reaction of a higher RG, creating the pin shattering Uranium HRG. The Uranium HRG gives you more length than previous Uranium going cleaner through the front before exploding on the backend

ACCESSORIES

Axis Finder

The easiest way to spin a bowling ball and find its axis point.

Gravity Balance System

This system is specially designed for axis and leverage weights. You will be able to enhance the performance, predict the reaction, duplicating this from ball to ball.

Buzzsaw Towels

- Super sweat, oil & moisture absorbing capacity
- · Maintains dry hands for high scoring games
- Cleans lane oil, dust & grime off hands & ball

BUZZSAW HATS

BUZZSAW BAGS

- Handle locks in two positions
- Wide 5" wheels
- Large shoe compartment
- Fully Retractable Squared Handle Multiple accessory compartments on both sides
 - Special flared base enables the bag to stand upright securely
 - 5 Year Warranty
