

KISS THE COMPETITION GOODBYE.

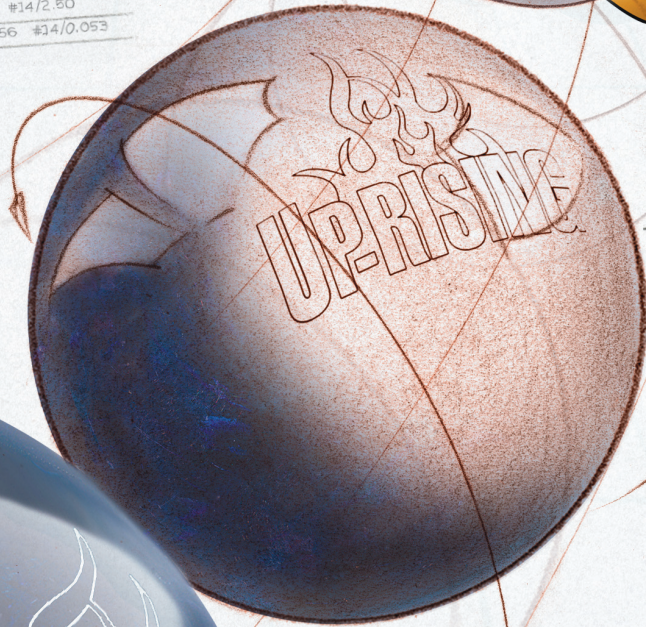

MEGA TRON CORE

This is where all the power really kicks in, thanks to the largest single density 7lb core in the biz.

HIGH PERFORMANCE GEN 2 REACTIVE COVERSTOCK

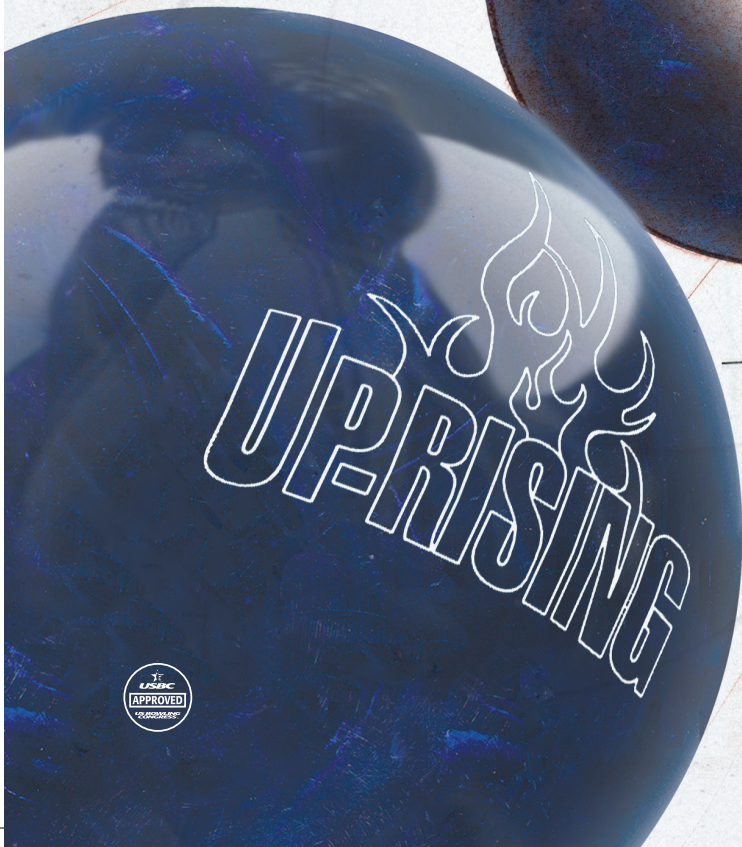

Reactive coverstock cuts sharply through the lane, making for a clean, smooth drive at the front, while still storing that initial energy released.

PURE ENERGY RELEASED AT DELIVERY

Ball speed + rev rate + positive axis point = bowlers finger print; or in other terms a rip roaring release.

BALL NAME	UP-RISING		
STYLE	029744-1163		
COLOR	BLACK		
REACTION	SKID/FLIP
