

One fine-tuned oil eating machine.

Introducing the NEW Kinetic Pearl from Track.

www.trackbowling.com

Engineered to cut through oil like no other.

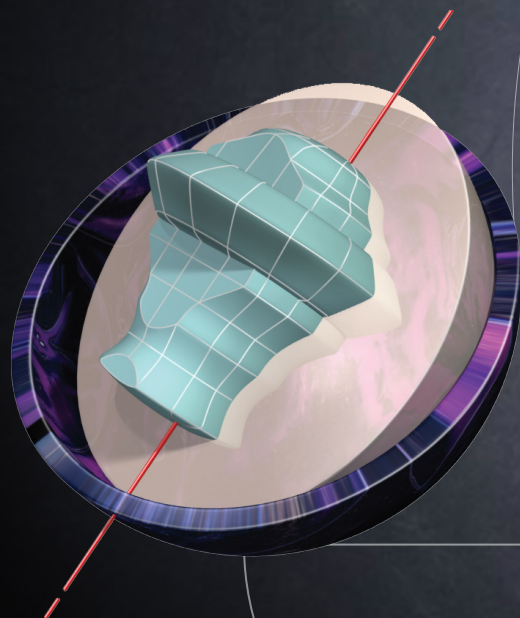

KINETIC PEARL

Performance greatness matches cover and core. The core in the Kinetic Pearl has been adjusted for peak performance to handle this unique, oil-cutting Pearl coverstock, one that we've engineered to have the sharpest breakpoint the industry has ever seen. With an RG of 2.46 and a differential of 0.042, this asymmetrical design is second to none. This is supreme engineering made beautiful.
