TWISTED FURY SOLID NEW

Get Twisted again. The Twisted Fury Solid introduces EnMotion-Xtra™ coverstock. EnMotion-Xtra features improved traction in the oil and a high hook potential. Integrated with the Torsion asymmetric core, the Twisted Fury Solid is a higher hook potential, mid-lane recovery version of the original Twisted Fury.

PART # 60-104940

FURY	COVERSTOCK	FACTORY FINISH	HOOK POTENTIAL	LENGTH	SHAPE	RG-Max	RG-MIN	RG-DIFF	RG-AVG	Weights
TWISTED FURY SOLID	EnMotion-Xtra Solid	1000-Grit Wet Sand	140	100	75	2.548	2.512	0.036	3.8	12-16

TWISTED FURY

The Twisted Fury introduces Torsion™ asymmetric core geometry to the Fury line with an innovative new six-sided polygon core shape. This innovative core technology combines with a pearlized version of the exciting EnMotion™ coverstock to deliver length and back-end ball motion.

PART #60-104838

FURY	COVERSTOCK	FACTORY FINISH	HOOK POTENTIAL	LENGTH	SHAPE	RG-Max	RG-MIN	RG-DIFF	RG-AVG	Weights
TWISTED FURY	EnMotion-Pearl	Rough Buff	115	105	80	2.548	2.512	0.036	3.8	12-16

SMASH ZONE® NEW

The Smash Zone integrates a pearlized version of the exciting EnMotion™ coverstock with an updated version of the original Inferno® core and a high-gloss polish finish. This core and coverstock blend creates an ultra-low RG symmetric ball that gets through the front part of the lane then revs strongly to create excellent mid-lane recovery while storing enough energy for a strong back-end reaction with smashing results.

PART # 60-104914

HIGH PERFORMANCE	COVERSTOCK	FACTORY FINISH	HOOK POTENTIAL	LENGTH	SHAPE	RG-Max	RG-MIN	RG-DIFF	RG-AVG	Weights
SMASH ZONE	EnMotion-Pearl	High Gloss Polish	115	95	70	2.511	2.464	0.047	2.6	12-16

ULTRA ZONE®

The Ultra Zone uses a solid/pearl hybrid version of the EnMotion™ coverstock with an updated version of the Phantom™ core, the bowling industry's first asymmetric core. This combination provides an ultra-low RG asymmetric ball that generates a ball motion with strong mid-lane recovery and a continuous back-end hooking action.

PART # 60-104875

HIGH PERFORMANCE	COVERSTOCK	FACTORY FINISH	HOOK POTENTIAL	LENGTH	SHAPE	RG-Max	RG-MIN	RG-DIFF	RG-AVG	Weights
ULTRA ZONE	EnMotion-Solid/Pearl Hybrid	Rough Buff	135	90	70	2.504	2.458	0.046	2.4	12-16

SWARM™ NEW

The Swarm features the Honeycomb core system, a new multi-sided symmetrical core which utilizes a matrix of low and high density fibers to produce a medium RG ball. This innovative core system is integrated with the popular PowrKoil 18™ coverstock. The result is an angular ball reaction that gets through the mid-lane with enough energy left to create a buzz at the breakpoint and sting the pins.

PART # 60-104910

PERFORMANCE	COVERSTOCK	FACTORY FINISH	HOOK POTENTIAL	LENGTH	SHAPE	RG-Max	RG-MIN	RG-DIFF	RG-AVG	Weights
SWARM	PowrKoil 18 Pearl	High Gloss Polish	105	105	75	2.571	2.530	0.041	4.6	10-16
COPPERHEAD	PowrKoil 18 Solid	800-Grit Wet Sand	130	80	60	2.539	2.496	0.043	3.5	10-16
SIDEWINDER	Low Load Particle Hybrid	Rough Buff	120	90	65	2.534	2.489	0.045	3.3	10-16

COPPERHEAD™ **NEW**

The Copperhead uses the multi-sided Rocket™ core system in combination with the proven PowrKoil 18™ coverstock to provide a low RG ball that revs up strong and creates tremendous mid-lane recovery. The 800-grit sanded finish on the Copperhead creates excellent traction in the oil and delivers a strong and continuous breakpoint. The Copperhead will bite through the oil and strike the pins.

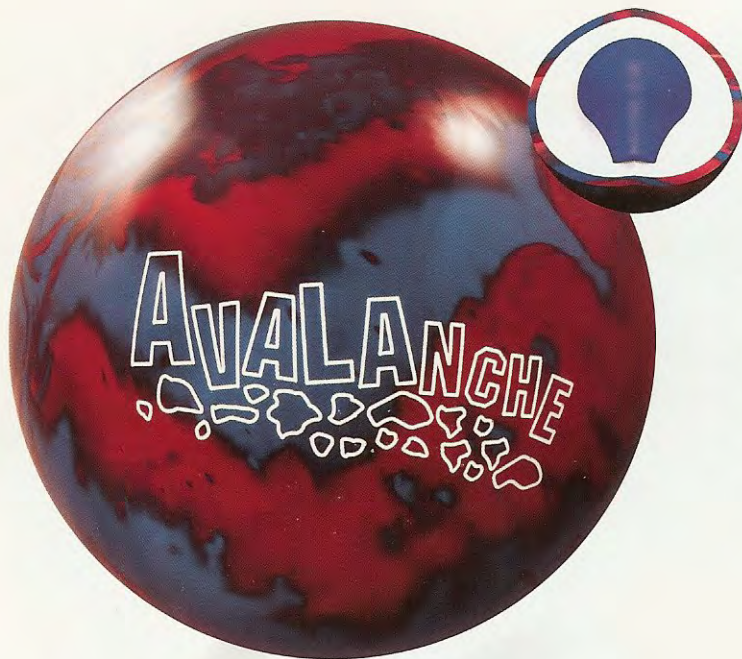

PART # 60-104912

SIDEWINDER™

The Sidewinder features the first solid/pearl hybrid low-load particle coverstock by Brunswick. Known for mid-lane recovery with controlled and continuous breakpoints, the low-load particle ball reaction has been a favorite for many types of bowlers on both high-scoring house shots and more demanding PBA®/Sport lane conditions. The low RG Rocket core helps the Sidewinder rev strong to create an excellent mid-lane recovery ball for today's high viscosity oils and hard synthetic lane surfaces.

PART # 60-104767

AVALANCHE SOLID

Blue/Red

The Avalanche Solid - Blue/Red uses PowrKoil 18 reactive coverstock, the most successful reactive formulation in the bowling industry, to traction more in the oil and create a higher hook potential ball than the Avalanche Pearl - Blue/Silver.

Part # 60-104771

AVALANCHE PEARL

Blue/Silver

The Avalanche Pearl - Blue/Silver uses N'Control PowerBoost Reactive coverstock. N'Control coverstock was designed for more length than the PowrKoil family of coverstocks. The Avalanche Pearl is designed for lighter amounts of oil and a more "down-the-boards" line to the pocket.

Part # 60-104773

AVALANCHE	COVERSTOCK	FACTORY FINISH	HOOK POTENTIAL	LENGTH	SHAPE	RG-MAX	RG-MIN	RG-DIFF	RG-AVG	WEIGHTS
SOLID	PowrKoil 18 Solid	Rough Buff	95	125	70	2.548	2.524	0.024	4.2	10-16
PEARL	N'Control PowerBoost Pearl	High Gloss Polish	80	145	75	2.548	2.524	0.024	4.2	10-16

POWER GROOVE® REACTIVE

For medium-dry to medium-oily lane conditions.

Reactive coverstocks respond more aggressively to dry lane surfaces, increasing back-end hooking action and hitting power. All Power Groove reactive balls feature PowrKoil 17, the strongest reactive coverstock ever used on a Groove class ball and Brunswick's DISC (Differential Increasing Side Cylinders) core technology.

REACTIVE	PowrKoil 17	High Gloss Polish	70	155	75	2.704	2.663	0.041	8.0	10-16

POWER GROOVE® DRY REACTIVE

Green/Chrome Pearl

For dry to medium lane conditions. The Power Groove Dry/R provides less traction in the oil for more length, a smoother reaction on the back-end and a lower hook potential when compared to the other Power Groove reactive balls. This makes the Power Groove Dry/R a better match for dryer lane conditions.

Part # 60-104335

GROOVE® URETHANE

Dark Blue/Light Blue Polished

For dry to medium lane conditions. Urethane is the next step up from plastic. Urethane coverstocks improve durability and increase hooking action in the oil. Large differences in hook potential can be created by sanding or shining urethane coverstocks. Groove urethane is the most affordable urethane in the line.

Part # 60-104775

GROOVE	COVERSTOCK	FACTORY FINISH	HOOK POTENTIAL	LENGTH	SHAPE	RG-MAX	RG-MIN	RG-DIFF	RG-AVG	WEIGHTS
