AURA™ MYSTIC — NEW

The Aura Mystic features the new Optimum Versatility Reactive Coverstock that provides more length and more backend reaction to achieve ultimate versatility. Finished with Rough Buff polish, the Aura Mystic slips through the front with ease, revving fast in the mid-lane and generating an extremely high angular velocity on medium to heavy oil lane conditions.

AURA ULTRA LOW RG CORE

The Aura Ultra Low RG core features a single density rounded-off elliptical inner core. The core is dynamically designed to extend the rotational energy, boosting angular velocity to transfer energy to the pins for increased pin action and higher scores.

AURA™ PARANORMAL

The Aura Paranormal provides exceptional hook potential and a quick response to friction with strong continuation on the backend. The Aura Paranormal provides the highest hook potential in the Brunswick product line..

AURA ULTRA LOW RG CORE

The Aura Ultra Low RG core features a single density rounded-off elliptical inner core. The core is dynamically designed to extend the rotational energy, boosting angular velocity to transfer energy to the pins for increased pin action and higher scores.

AURA™

The Aura provides outstanding length and super quick response to friction with outstanding continuation on the backend making it an excellent match on medium to heavy oil lane conditions.

MEANSTREAK™ BEATDOWN — NEW

The Meanstreak Beatdown combines the Addaptive $f(P+S)$ Solid coverstock with the Meanstreak Medium RG core to provide plenty of traction in the oil with a strong response on the backend and excellent continuation through the pins on medium to heavy oil lane conditions.

60-105563-93X - DARK BLUE/LIGHT BLUE

MEANSTREAK MEDIUM RG SYMMETRIC CORE

The Meanstreak Medium RG symmetrical core features a long and lean design to provide maximum energy retention. Increasing the mass around the equator has further stabilized the dynamics increasing the mid-lane traction.

MEANSTREAK™ BRAWLER

The Meanstreak Brawler skids easily through the front part of the lane, revving up strong in the mid-lane for a strong and continuous backend reaction. This combination of coverstock and core creates an extremely versatile motion on medium oil lane conditions.

MEANSTREAK MEDIUM RG SYMMETRIC CORE

The Meanstreak Medium RG symmetrical core features a long and lean design to provide maximum energy retention. Increasing the mass around the equator has further stabilized the dynamics increasing the mid-lane traction.

MEANSTREAK™

With its high gloss finish, the Meanstreak is super clean through the front, retaining axis rotation for the backend to produce a quick response at the breakpoint and excellent continuation on the backend. This combination of coverstock and core creates an extremely versatile motion and a great "Go To" ball on broken down lane conditions.

60-105485-93X - RED/BLACK PEARL

HOOK	125	COVERSTOCK	Addaptive $f(P^2)$ Pearl

MEANSTREAK HIGH RG SYMMETRIC CORE

The new Meanstreak High RG symmetrical core features a long and lean design to provide maximum energy retention. Adding a mass around the equator stabilizes the dynamics to enhance the versatility of the core.

Brunswick® High Specs

RINGER™ — NEW

The Ringer is the best choice in the Brunswick line for light oil lane conditions. With its high gloss finish, the Ringer provides excellent length with a medium to quick response to friction at the breakpoint making it a great ball for rev dominant and slower ball speed players.
