

The most powerful messages are hand delivered.

If you really want to deliver the ball with authority, grab on to the Messenger™. Available in two new stunning color choices, it features the high-performance Super-Flex™ coverstock for greater hook. It also grips the lane better in oily conditions for better control with every throw. So if you really want to deliver a message to the competition, raise your hand. And pick up the Messenger.

MESSENGER™

SOLID OR PEARLIZED

TECHNICAL INFORMATION

FEATURES

BENEFITS

CORE TECHNOLOGY:	Flip block with core body	Creates dynamic ball properties generating track flare to increase friction with the lane.
PEARLIZED COVERSTOCK:	Pearlized Super-Flex™ Resin Reactive Urethane by BASF® with HoloFlex™	The pearlized SuperFlex coverstock assists the ball getting down the lane. Its controllable break point is ideal after the track opens up.
SOLID COVERSTOCK:	Super-Flex™ Resin Reactive Urethane by BASF®	Aggressive coverstock grabs the lane at the end of the oil to increase the sharpness of the break point.
HARDNESS:	75-78	ABC-WIBC Approved
