

# CUDA

**Fear the Deep Blue/C.**

Just when the competition thought it was safe to get back on the lanes, the /C monster returns. CUDA™/C 2000 is a menacing combination of our original, best-selling CUDA™/C core and a new pearalized Holo-Flex™ reactive shell. Together it goes further and then grips the lane more than any CUDA before it. Even as the track dries up, the ball controls its release of energy up front. It gets through the heads easily to deliver more hook and power through the pins on the backend. The CUDA™/C 2000 with its controllable, arcing motion leaves the pocket no place to hide, and the competition a lot more to fear.

Columbia bowls the world over.

# CUDA/C

## 2000

The Cuda™/C 2000 is the return of the Cuda™/C with an improved shell. This new ball features the original Cuda/C core which was one of the best selling Columbia cores of all time. Our new Holo-Flex™ shell surrounds the core. The Holo-Flex is a reactive shell with a soft, engineered additive which is designed to protrude beyond the shell to give the ball a unique texture and sparkly appearance. This synthetic additive allows the ball to get through the heads easily as the track dries up. The Cuda/C 2000 is designed to get to the backend of the lane and have a controllable, arcing motion to the pins. The ball has a smooth arcing ball path which makes it easy to find the strike pocket without having to throw the perfect shot.

## TECHNICAL INFORMATION

### CORE TECHNOLOGY:

**FEATURES:**  
Traditional Cuda/C Core

### COVERSTOCK:

Pearlized Holo-Flex™

### HARDNESS:

75-78

### BENEFITS:

Medium low Rg core to get into a roll in the oil with medium differential Rg to create an arcing backend

Holo-Flex™ means a shell that retains energy in the front of the lane for more hook and power through the pins on the back of the lane

### TECHNICAL SPECIFICATIONS:

#### DYNAMIC PROPERTIES

Weight	Rg (x axis)	Differential Rg
16 lb.	2.520	0.046
15 lb.	2.573	0.040
14 lb.	2.635	0.032

#### HOOK RATING

	Hook Boards*
Cuda/C 2000	17
Cuda 2000	18

**Track Flare:**  
4" to 6"

\* For average speed and rotation

### ORDER INFORMATION:

**AVAILABLE WEIGHTS:**  
12-16 lbs.

**ITEM NUMBER:**  
N64-10

**COLOR:**  
Ocean Blue Pearl with Pink Engraving

**FACTORY FINISH:**  
Polished
