14#	2.50	.042
15#	2.46	.040
16#	2.47	.035

NEW ERA SOLID

New Era has never been used in only a Solid in any ball we've produced with a New Era cover. Because New Era is a pretty clean cover, we've created even more back end reaction by removing all the pearl from the ball and give the New Era cover a little more traction.

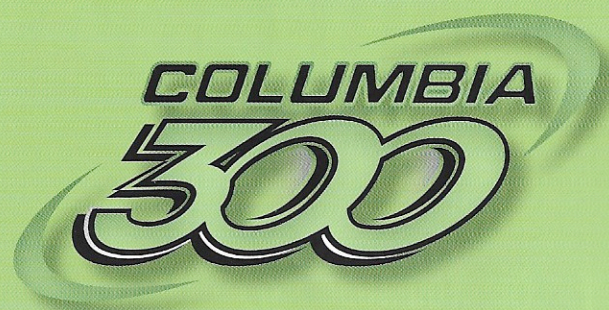

RESURGENCE CORE

If it ain't broke don't fix it! That's why we're sticking with the Resurgence core. The Resurgence core will go down in Columbia 300's great history as one of the most successful cores we've produced. The low RG and Medium Differential make this a great choice for all styles.

WHAT TO EXPECT

This core and cover combo will bring Disruption to the bowling world when all you do is strike. We've taken our mid-performance line to the next level with this ball and we're causing an uproar by giving you too much performance without disrupting your bank account!
